

- **Indianapolis Fire Department:** I am a hazardous materials specialist. FEMA mandates water sampling, but we are not getting tools or equipment to do that. Is there a way we could bridge that gap in the Department of Homeland Security through U.S. Coast Guard's capabilities?
 - **Dana Tulis:** Yes, let us exchange contact information so we can work together on that.
- **SOARescue:** To echo that, does the U.S. Coast Guard have operations in place for floodwater decontamination?
 - **Dana Tulis:** I am not sure. We can investigate it – it will be your typical mix of contaminants.
