Request for Rescission of PSD Permit No. PSD-TX-101199-GHG

Dear Ms. Magee:

Kinder Morgan Crude & Condensate (KMCC) is submitting this request to rescind the above-referenced Greenhouse Gas (GHG) Prevention of Significant Deterioration (PSD) permit which was issued on May 22, 2013. This PSD permit was issued by the U.S. Environmental Protection Agency (EPA) solely because emissions of GHGs were above the PSD major source threshold. This request for permit rescission is in accordance with the direct final rule Providing Option for Rescission of EPA-Issued Tailoring Rule Step 2 Prevention of Significant Deterioration Permits as published May 7, 2015 and effective July 6, 2015.

Based on the revisions to 40 Code of Federal Regulations (CFR) 52.21(w)(2)(iii) that became effective on July 6, 2015, sources that were required to obtain PSD permits solely based on emissions of GHGs may request that these permits be rescinded. The modified rule reads as follows:

*(w)(2) Any owner or operator of a stationary source or modification who holds a permit for the source or modification may request that the Administrator rescind the permit or a particular portion of the permit if the permit for the source or modification was issued:*

*(iii) Under 52.21 between July 1, 2011 and July 6, 2015 for a modification that was classified as a major modification under paragraph (b)(2) solely on the basis of an increase in emissions of greenhouse gases, which were defined as a regulated NSR pollutant through the application of paragraph (b)(49)(v)(b) of this section as in effect during this time period.*

KMCC is requesting that this permit be rescinded as the site meets the above criteria.

KMCC also submitted to the Texas Commission on Environmental Quality (TCEQ) a minor New Source Review (NSR) permit application for non-GHG pollutants in connection with the same proposed project. TCEQ issued the initial minor NSR Permit No. 101199 on June 12, 2013. An amendment to this permit to reflect as-built conditions was issued October 8, 2014, followed by a

permit revision issued on June 24, 2016. Additionally, an amendment to this permit is currently under TCEQ review to reflect as-built conditions. A copy of the current version of TCEQ Permit No. 101199 issued on June 24, 2016, is included as Attachment A. Please note that the permit revision issued on June 24, 2016, removed the EPN MAR-VCU from Permit No. 101199, which corresponds with EPN SD4-VCU, VCU-1A, VCU-1B, VCU-2A, VCU-2B, VCU-2C from the GHG permit. KMCC transferred this equipment to Kinder Morgan Liquids Terminals LLC's (KMLT) (CN603254707) responsibility.

Attachment B includes a copy of the TCEQ's technical review and Preliminary Determination Summary for Permit No. 101199 that was issued on June 12, 2013, which summarizes and discusses the total project emissions from Crude Condensate Splitter Facility and documents that the facility did not trigger PSD review for any non-GHG criteria pollutants.

Attachment C includes a copy of the TCEQ's technical review for Permit No. 101199 that was issued on October 8, 2014, which summarizes and discusses the total project emissions from Crude Condensate Splitter Facility and documents that the facility did not trigger PSD review for any non-GHG criteria pollutants.

Attachment D includes a copy of the TCEQ's technical review for Permit No. 101199 that was issued on June 24, 2016, which summarizes and discusses the total project emissions from Crude Condensate Splitter Facility and documents that the facility did not trigger PSD review for any non-GHG criteria pollutants.

Attachment E includes a copy of Permit PSD-TX-101199-GHG, issued by the EPA.

I hereby certify that PSD Permit PSD-TX-101199-GHG is not being used, or planned to be used, for any regulatory compliance or enforcement purposes, and that the information contained in this rescission request is factual and correct.

If you have any questions regarding this request or require additional information, please feel free to contact Jenni Melder at (832)690-5623 or [jennifer\\_melder@kindermorgan.com](mailto:jennifer_melder@kindermorgan.com).

Sincerely,

Danny Morgan  
Director of Operations
