

Less is More: How to Effectively Reduce Your Impervious Cover with Small-Scale Projects

Impervious Cover Disconnection Project: An Integrated Stormwater Management Approach

Thursday, April 30, 2020 1:00-2:30 PM EST

#SNEPitUp

Webinar Link: <https://global.gotomeeting.com/join/836414565>

Phone: +1 (872) 240-3311

Access Code: 836-414-565

Please join us on the first Southeast New England Program (SNEP) webinar of the year where we will learn about the SNEP funded Impervious Cover Disconnection project. The speakers will describe (1) how impervious cover correlates with flooding and water quality degradation, (2) the next generation of stormwater management with an emphasis on municipal implementation of spatially distributed, small-scale management practices, and (3) how this new stormwater management approach will lead to resilience and sustainability.

Speakers:

Ray Cody, USEPA Region 1

Adam Turner, Executive Director, Martha's Vineyard Commission

Alvi Khalid, Paradigm Environmental

Dave Rosa, Paradigm Environmental

Jamie Houle, University of New Hampshire Stormwater Center
