

# U.S. EPA

THE OFFICE OF CHEMICAL SAFETY  
AND POLLUTION PREVENTION

## About the Office

The mission of the Office of Chemical Safety and Pollution Prevention (OCSPP) is to protect human health and the environment from potential risks caused by pesticides and toxic chemicals.

OCSPP staff and scientists work together serving our science policy, and regulatory and voluntary programs to assess the potential for hazard to human health and the environment as well as the risk from exposure to chemicals and pesticides.

## For More Information

Elizabeth Mendez | Health Effects

## Scientific and Engineering Positions

Positions are located in Research Triangle Park, NC and range from the GS-9 to the GS-13 level (salary from \$56,233 to \$126,062).

- Chemistry support for exposure/hazard assessment
- Environmental and/or chemical engineering
- Industrial hygiene and statistical analysis
- Ecotoxicology and environmental biology
- Microbiology and epidemiology
- Toxicology mechanistic and adverse outcome pathway analysis
- Environmental fate and transport assessment
- Toxicology with experience in adsorption, distribution, metabolism and excretion (ADME)

## How to Apply

Candidates must be U. S. citizens. All recruitment occurs through vacancy announcements posted on [USAJOBS](https://www.usajobs.gov).

For more information on qualifications, visit the [OPM's Website](https://www.opm.gov).
