

Optional Template for FY20 Multipurpose Grant Work Plan

This template is available to any grantee who wishes to use it as part of the application for the FY20 MPG. It is not required. States and Regions may have an established framework negotiating grant awards that they are welcome to continue to use.

Please note that administrative requirements for all grants, including cooperative agreements, can be found at [2 CFR 200.210](#), and will be specified in the Terms & Conditions on the award. General work plan requirements for Continuing Environmental Program Grants and MPG awards made as part of PPGs are codified at [40 CFR 35.107](#). These requirements may be used as reference for developing standalone MPG work plans. Additional information on preparing applications and budgets can be found at in EPA's [Interim General Budget Development Guidance for Applicants and Recipients of EPA Financial Assistance](#).

Grantee: [insert name of state + agency]

Program/sub-office: [e.g., Bureau of Air Quality]

Award amount: [i.e., how much the state agency is applying for]

Contact: [insert primary program point of contact]

Project Period: [amount of time state anticipates it will take to spend the funds]

Environmental Results

Per EPA's [environmental results policy](#), applicants are expected to address environmental results in their work plans. EPA project officers must then link those proposed results to the agency's Strategic Plan. All Multipurpose Grant awards support work under Goal 2 of the [EPA's FY18-22 Strategic Plan](#).

Goal 2: More Effective Partnerships / Objective 2.1: Enhance Shared Accountability

By designing a grant program that provides flexibility to states to direct funds to where they are most valuable, EPA is delivering on its promise to improve environmental protection through shared governance.

Please select any other Goals supported by this proposed work plan:

Goal 1: A cleaner, healthier environment

- ☐ Objective 1.1: Improve Air Quality
- ☐ Objective 1.2: Provide for Clean and Safe Water
- ☐ Objective 1.3: Revitalize Land and Prevent Contamination
