

## LMOP Shares U.S. EIA's Request for Comments

The U.S. EPA Landfill Methane Outreach Program (LMOP) is pleased to inform its Partners and other interested stakeholders about a **notice and request for comments** from the **Energy Information Administration (EIA)**, within the U.S. Department of Energy (DOE).

The EIA annually collects data related to natural gas supply and disposition in the United States and publishes statistics from the data on its website. **EIA has proposed to change its survey instructions to specifically include "producers of renewable natural gas (RNG) or biogas" including landfills and agricultural and wastewater treatment facilities.** EIA proposes to include RNG and biogas producers as respondents to **Form EIA-176**.

On April 28, 2020, the EIA published its notice and request for comments in the **Federal Register**, available at <https://www.federalregister.gov/documents/2020/04/28/2020-08895/agency-information-collection-proposed-extension>.

**Comments must be submitted to EIA no later than June 29, 2020**, following the instructions in the Federal Register notice.

*To request removal from this email list, please reply to this message. For further information or questions about LMOP, please do not reply to this email message, but rather visit the [LMOP website](#). Thank you.*
