

## RFP for LFG Energy in New York - Virtual Site Visit 8/20

As a service to our Partners and other stakeholders, EPA's Landfill Methane Outreach Program (LMOP) is sharing information about a **request for proposals (RFP) from Steuben County, New York for an LFG energy project at the Bath Landfill**. Please note that EPA is not affiliated in any way with the review and selection process. Information provided below is based on the RFP.

The County seeks proposals from experienced, successful LFG energy project developers to **purchase LFG from the County**. The County will consider various project types, including **direct heating, electricity generation, renewable natural gas production, or other proven technologies**. The landfill has an active gas collection and control system, and the existing LFG electricity project is currently idled. The County holds the rights to all facilities and equipment associated with the existing project except for the electrical grid connection.

A **virtual pre-proposal site visit** will be held at **10:00 AM [EDT]** on **Thursday, August 20, 2020**; interested parties should register with Andrew Morse at [AMorse@SteubenCountyNY.gov](mailto:AMorse@SteubenCountyNY.gov). **Questions** will be accepted during the virtual site visit or otherwise in writing to Andrew Morse until **Thursday, August 27, 2020**. **Proposals** must be received by **1:30 PM [EDT]** on **Friday, September 18, 2020**.

Please refer to the RFP for complete details. The **RFP is available** on Steuben County's website at <https://www.steubencony.org/pages.asp?PID=41>.
