

Attachment G. Site Security and Manifest Requirement (Commercial Wells Only)

See Attached Document titled "Windfall Oil & Gas Revised C&D plan" for security measures

Manifest Requirements:

Windfall shall record every load of fluid received. The record shall include the hauler's name, the operator's name, the operators name, and the location from where the load was obtained, the volume of the load and weather the load was a split load. If the load was split, each operator's name and location shall be listed and the volumes of fluid from each operator.
