Part E – Executive Summary

All agencies must complete Part E.1; however, only agencies with 199 or fewer employees in permanent FT/PT appointments are required to complete Part E.2 to E.5. Agencies with 200 or more employees in permanent FT/PT appointments have the option to complete Part E.2 to E.5.

Introduction

This Equal Employment Opportunity Program (EEO) Status Report outlines the status of the U.S. Environmental Protection Agency's (EPA or Agency) FY2019 (FY19) Equal Employment Opportunity Program activities, as required by the U.S. Equal Employment Opportunity Commission's (EEOC) Management Directive 715 (MD-715). This report highlights EPA's accomplishments in establishing and maintaining a model EEO program based on the six essential elements outlined by the EEOC:

- Demonstrated Commitment from Agency Leadership
- Integration of EEO into the Agency's Strategic Plan
- Management and Program Accountability
- Proactive Prevention of Unlawful Discrimination
- Efficiency
- Responsiveness and Legal Compliance

EPA reviewed its program activities from FY19 against these six essential elements. Where program deficiencies were identified, planned activities to address them were developed.

The U.S. Environmental Protection Agency

The mission of the EPA is, "To protect human health and the environment." Fostering and maintaining a diverse, highly skilled, and engaged workforce consistent with EEO and merit system principles is essential to fulfilling EPA's mission. EPA works to deliver a cleaner, safer, and healthier environment by administering and enforcing federal laws passed by Congress. The Agency works to achieve its environmental and human health objectives through collaboration with its external partners, such as states, tribal governments and the regulated community.

The Office of Civil Rights

The EPA's Office of Civil Rights (OCR) provides leadership, direction, and guidance in carrying out the Agency's EEO program. OCR ensures compliance with federal nondiscrimination employment laws, regulations, and executive orders (EO). EPA's senior leadership has established EEO as one of its top priorities by recognizing the importance of building and supporting a diverse and talented workforce as part of the Agency's mission. OCR's mission statement is, "To create a model civil rights program that improves the employment experience at EPA." To fulfill this mission, OCR utilizes five guiding principles:

- Timeliness of Regulatory Deliverables and Services
- Customer Service
- Collaboration/Cooperation
- Innovation
- Expertise

These principles were developed as a guidepost for OCR and reflect the commitment of the program to achieve its various objectives.

Model EEO Program – Essential Elements

As noted above, the Agency reviewed its program activities from FY19 against the six essential elements of a model civil rights program as prescribed by the EEOC. The sections below provide examples of EPA's accomplishments under each of those elements. Additional information can be found in Part G, the Agency's self-assessment towards a model EEO program.

Essential Element A – Demonstrated Commitment from Agency Leadership

In FY19, the Agency communicated its commitment to EEO and a workplace free of discrimination by issuing the EEO Policy Statement on September 27, 2019 and the Anti-Harassment Policy Statement on September 30, 2019. Both policy statements were issued by the Administrator. Demonstrated commitment from Agency leadership was made further evident through the engagement of Deputy Civil Rights Officials (DCROs). The DCRO role, established through EPA Order 4700 in 2013, created collateral duty civil rights responsibilities for Senior Executive Service (SES) members within the various programs and regions. Throughout FY19, OCR worked to engage the DCROs on the MD-715 national priorities and solicited their support on regional site visits.

Additional details and examples of demonstrated commitment from Agency leadership to EEO include:

- OCR successfully solicited DCROs to serve as executive champions on OCR's MD-715 national priorities: Upward Mobility of Hispanics, Increased Use of the Schedule A Hiring Authority, Applicant Flow Data for Career Development Opportunities, and Applicant Flow Data for the Attorney-Advisor Occupational Series.
- OCR was provided a standing portion of the Agency's Executive Management Council (EMC) meeting agenda. The EMC is comprised of the most senior EPA career leadership and meets throughout the year on management and policy matters.
- At the direction of the Administrator, the Agency's Special Emphasis Programs (SEPs) and Nonlabor Employee Groups (NLEGs) were made permanent parts of the Agency's Diversity and Inclusion Advisory Committee (DIAC).
- EPA senior leadership played an active role in the development of or participated in several Agency Forums held at National Training Conferences, including:
 - o Society of American Indian Government Employees (SAIGE)
 - o League of United Latin American Citizens (LULAC)
 - o Blacks in Government (BIG)
- OCR developed and delivered the annual "State of Civil Rights" briefing for the Administrator and senior EPA leadership.
- Continued engagement by EPA senior leadership in Special Emphasis Program (SEP) activities, including opportunities to serve as national executives for specific programs.
- Recognition through the Suzanne E. Olive Award for Exemplary Leadership in National EEO was observed. This is the Agency's highest award honoring EEO and it recognizes individuals and/or groups for their significant contributions to EEO, civil rights, and diversity and inclusion. Additionally, individual offices presented EEO/diversity and inclusion awards at their respective employee awards ceremonies.

• Revision of SES Performance guidance to enhance SES understanding, commitment and obligation to model civil rights practices, under the Leading People critical element.

Essential Element B – Integration of EEO into the Agency's Strategic Mission

Integration of EEO into EPA's strategic mission is achieved through the support of Agency leadership and their engagement in the EEO program. The OCR Director has regular and effective means of advising the Administrator and other senior leadership on all aspects of the Agency's EEO program. The OCR Director regularly participates in senior level staff meetings. There are other opportunities to engage senior leadership on EEO programmatic work, particularly OCR's national priorities. Additionally, several functions within OCR align with Goal 3, Objective 3.5 of the Agency's Strategic Plan, 2018-2022: *Improve Efficiency and Effectiveness.* The focus of Objective 3.5 is operational improvement. Within the Employee Complaints and Resolution Staff (ECRS) program, OCR has worked to improve several processes through the EPA Lean Management System (ELMS) including investigations and Final Agency Decisions (FADs). Additional examples of how EEO has been integrated into the Agency's strategic mission include:

- The OCR Director provided the Administrator with the State of Civil Rights at EPA briefing. This briefing highlighted the program's priorities, including the Upward Mobility of Hispanics and the Increased Use of the Schedule A Hiring Authority for Persons with Disabilities (PWD).
- OCR includes EPA senior leadership and other management in the implementation of the EEO program in various ways. Specifically, DCROs have been involved in OCR's high-level policy decisions, such as the Increased Use of the Schedule A Hiring Authority national priority. Additionally, site visits conducted in FY19 afforded the opportunity to engage management in discussions on EEO matters. Managers were also provided EEO complaints training.
- OCR and OHR senior managers routinely meet to identify areas of collaboration on EEO and diversity and inclusion efforts, including targeted outreach and recruitment.
- OCR evaluated its staff structure and personnel needs, then developed a comprehensive staffing plan to ensure the proper level of resources were dedicated to achieving the objectives of the program. This staffing evaluation was supported by Agency senior leadership.
- OCR consulted with the Agency's EEO Officers on several priorities and programmatic improvements. Several EEO Officers are serving as either project leads or team members for OCR national priority projects. Additionally, OCR held a meeting with the EEO Officers where OCR staff focused on programmatic and process improvement to the MD-715 process (data call) and Alternative Dispute Resolution (ADR) in the ECRS program.
- Implementation of EPA's Diversity and Inclusion Strategic Plan FY17-FY21 (DISP) was continued. The DISP has specific goals and objectives aimed at meeting the Agency's EEO and diversity objectives, for example, efforts to mitigate the impact of unconscious bias on the hiring process. It works toward fostering and maintaining a diverse, highly skilled, and engaged workforce. OCR and OHR collaborate to develop an annual workplan, identifying specific DISP activities.
- EPA continued to focus on building partnerships with professional organizations and minorityserving institutions. This is part of the recruitment and outreach efforts aimed at identifying areas of mutual interest to support EPA's mission. In FY19, the Agency developed a Memorandum of Understanding (MOU) with the Society of Hispanic Professional Engineers (SHPE).
- The OCR Director provided the Administrator, along with senior management officials, an EEO "State of the Agency" briefing. This was a deficiency in FY18. Briefings were conducted in April

and May 2019, and concluded with a briefing for the Administrator on May 30, 2019. This deficiency has been corrected, closed out, and annual briefings will be conducted.

Essential Element C – Management and Program Accountability

OCR continues to emphasize effective management and program accountability. Managers, supervisors, and EEO Officials are held responsible for the effective implementation of the Agency's EEO program. One way this is accomplished is through training, which was a focus of OCR in FY19. Several site visits were conducted in FY19, including Regions 6 and 9 and the EPA laboratory in Cincinnati, OH. These site visits provided an opportunity for OCR to collaborate with regional and lab leadership on EEO matters and to identify areas of potential improvements, where needed. Other ways that management and program accountability was demonstrated include:

- The OCR Director, with the support of DCROs, worked to improve the timely management of EPA's EEO complaints program (including responsiveness of management to complaints, specifically affidavits).
- OCR conducted site visits at several EPA regional offices and laboratories. The site visits afforded OCR management opportunities to meet with local senior management and to deliver regional/lab focused "State of Civil Rights" briefings. OCR was able to provide training and to engage with the local Special Emphasis Program Managers (SEPMs).
- EPA re-issued policies and procedures related to EEO, anti-harassment, and reasonable accommodations. For example, hard copy materials were posted and visible throughout EPA headquarters, regions and labs. Information was also made available on EPA's intranet. OCR regularly provided information about our programs, policies, and practices to all new employees at New Employee Orientations.
- The SEPM 101 Training was delivered to 150+ EEO practitioners, managers, supervisors, and OHR diversity and inclusion staff. The SEPM training workgroup continues to develop training sessions to be delivered on a quarterly basis to all Agency SEPMS via the use of videoconferences (e.g., Skype for Business).
- The RA program processed over 600 requests for accommodations while completing over 90% of them within established timeframes.
- OCR and OHR effectively coordinated on a number of priorities, including the DISP and the national priority on the Increased Use of the Schedule A Hiring Authority.
- OCR senior management and SEPM National Program Managers (NPMs) participated in work planning sessions held at national training conferences. This engagement promoted coordination on SEPM and OCR efforts. Additionally, OCR presented workforce data and facilitated discussion around SEPM areas of concerns. These forums were conducted during the following national training conferences: Blacks in Government (Dallas, TX), Society of American Indian Government Employees (Niagara Falls, NY), and League of United Latin American Citizens (Milwaukee, WI).
- EPA created an "Hispanic Initiatives" working team consisting of Hispanic Senior Executive Service (SES), OCR / OHR staff, and SEPMs. This team was developed to support OCR's national priority on the Upward Mobility of Hispanics and to ensure a successful Hispanic Forum at the July 2019 League of Latin American United Citizens (LULAC) conference. During the forum, the OCR Director presented the "FY 2019 State of Hispanics Employees at EPA" to the Agency's Hispanic Employment Program Managers (HEPMs). The forum included panel discussions from SES managers and career EPA employees.

- In FY19, EPA, Gallaudet University (GU), and the Rochester Institute of Technology/National Technical Institute for the Deaf (RIT/NTID) continued to operate on established Memorandums of Understanding (MOU). Through these MOUs, EPA continues to collaborate on the advancement of environmental education to improve awareness of national employment opportunities and other opportunities for individuals with disabilities. Students will also be given notice of publicly available career opportunities at EPA, such as paid and unpaid internships. Additional MOUs are being established for FY20 to increase nation-wide partnerships.
- In FY19, the Agency hosted two EPA-wide training sessions: "Leveraging the Schedule A Hiring Authority for People with Disabilities," and "Ways to Mitigate Unconscious Bias about People with Disabilities in the Federal Workforce." The Schedule A hiring session was delivered by the Agency's Disability Diversity and Inclusion Program Manager. Guest speaker Michael Murray, Director of the Employer Policy Team, Office of Disability Employment Policy at the U.S. Department of Labor, delivered the session on unconscious bias. Both sessions discussed ways to utilize hiring authorities for persons with disabilities and combat unconscious biases and stereotypes to broaden positive perspectives. The training sessions were made available remotely, in-person, and were recorded. The videos are currently available on the Agency intranet site for all EPA employees.

Essential Element D – Proactive Prevention of Unlawful Discrimination

The EEO Policy Statement released in September 2019, made clear the Agency's commitment to a workplace free of discrimination and to the principles of EEO. Efforts by OCR to proactively prevent discrimination included hosting a three-day training seminar on development of the MD-715 report and how to conduct barrier analysis. The training was conducted by the EEOC and was provided to EPA's EEO Officers, OCR staff, and program management officials (PMOs) all of whom play a vital role in the annual development of the Agency's MD-715 report and help ensure that EEO principles and policies are adhered to in the workplace. Additional proactive prevention efforts included:

- RA training was provided to supervisors to inform them of the procedure associated with providing accommodations for qualified PWD and PWTD.
- During site visits and in response to specific requests, EEO complaints training was provided for management.
- OCR reviewed Employment Viewpoint Survey (EVS) reports to identify and address areas of concern.
- EPA required all newly-hired employees to complete the online No FEAR Act training within their first 90 days of employment at the Agency. The next bi-annual agency-wide No FEAR training is due in FY20.
- The EPA Employee Exit Survey has been updated. It provides separating EPA employees the opportunity to give input on Agency recruitment, hiring, inclusion, retention, and advancement of individuals with disabilities. This was a deficiency from FY18 that was corrected and closed-out during the FY19 reporting period.

Essential Element E – Efficiency

During FY19, ECRS utilized the EPA Lean Management System (ELMS) methodology to streamline the investigations process. As a result, the program achieved a 92% timeliness completion rate for investigations (36 out of 39 completed investigations, a 2% improvement over the rate of 90% in FY18).

In FY19, OCR had significant accomplishments in the ADR program, providing 82 offers for ADR in 139 informal EEO complaints. There were 49 acceptances resulting in a 59% participation rate; a significant increase over the FY18 participation rate of 45%. The participation rate also exceeded the EEOC target rate of 50%. Additional improvements include:

- Implementation of the ELMS process to reduce the FAD completion timeframes.
- OCR created the ad-hoc *MD-715 Efficiency Workgroup* that included OCR staff and EEO Officers with the purpose of streamlining the development and submission of the MD-715 report.
- Improved coordination and collaboration between OCR and OHR enabled those organizations to eliminate duplicative efforts, clarify organizational roles, and ensure accountability in civil rights, diversity and inclusion efforts. Commitments were memorialized in the OCR strategic plan and OHR's Diversity and Advisory Committee (DIAC) annual roadmap and strategy.

Essential Element F – Responsiveness and Legal Compliance

EPA's focus on compliance with EEOC regulations, policies, and directives was enhanced through the deployment of the ELMS process to create efficiencies and improve the timeliness to complete EEO complaint investigations.

- Of the 39 EEO complaint investigations in FY19, EPA completed 36 (92%) timely. The average time to complete unamended complaint investigations was 141 days. The average time to complete amended complaint investigations was 263 days. The timeliness completion rate met the ELMS target for FY19.
- EPA improved on its EEO Counselor program by training and certifying 21 new EEO counselors.

Workforce Analysis

The overall Agency demographics did not change significantly between FY18 and FY19.

Overall Agency Demographics for FY19

Analysis of FY19 workforce data continued to focus on established priorities: Upward Mobility of Hispanics, and the Increased Use of the Schedule A Hiring Authority.

Upward Mobility of Hispanics, GS-13 through SES

Analysis of Total Workforce data tables for FY17 through FY19 shows that there has been very little change in Hispanic participation in the Agency's workforce.

The Agency has identified the upward mobility of Hispanics as a national priority. As such, the HEP National Program Manager and Senior Executive Service national executive champion are leading an effort to conduct an in-depth analysis of workforce data pertaining to upward mobility of Hispanics into the senior grades. The analysis will help identify triggers that may indicate workplace barriers to upward mobility. If triggers are identified, then a barrier analysis will be conducted.

| Grade | Total EPA Employees (in Grade) | Number of Hispanic Males | Percentage of Hispanic Males | Number of Hispanic Females | Percentage of Hispanic Females |
|-------|--------------------------------------|-----------------------------|---------------------------------|----------------------------------|--------------------------------------|
| GS 13 | 5,575 | 222 | 3.98% | 228 | 4.09% |
| GS 14 | 2,596 | 82 | 3.16% | 74 | 2.85% |
| GS 15 | 2,112 | 61 | 2.89% | 50 | 2.37% |
| SES | 257 | 10 | 3.89% | 6 | 2.33% |

Table 2: Hispanic Employment in Grades 13 through SES

FY 2019 Hispanic Workforce Analysis

The majority of the Agency's permanent workforce is clustered at the GS-13 grade level. This is also the case for Hispanic males and Hispanic female employees. When reviewing progression into the senior grades the benchmark is the internal feeder pool of employees one grade below the benchmarked grade level.

For Hispanic males, workforce data tables demonstrate a less than anticipated participation rate from GS-13 to the GS-14, and from GS-14 to GS-15. However, at the SES level, the Hispanic males are at 3.89% which is higher than the GS-15 internal feeder pool of 2.89%. For Hispanic females, workforce data tables demonstrate a less than anticipated participation rate from the GS-13 to the GS-14, and from GS-14 to GS-15. However, the SES participation rate for Hispanic females is slightly less than the rate at the GS-15 internal feeder pool. The participation rates for Hispanic females at the GS-14 warrants further and focused analysis to determine if there are barriers in the workplace for upward mobility.

PWD and PWTD in the Major Occupations

As part of the national priority on the Increased Use of the Schedule A Hiring Authority, OCR is conducting a barrier analysis on the participation rates of PWD and PWTD (Persons with Targeted Disabilities) in the major occupations. This priority originated from the analysis of FY18 workforce data where triggers were identified.

Participation rates for PWD and PWTD in the total workforce (permanent and temporary) were as follows:

- PWD: 8.2%, up from 7.8% in FY18
- PWTD: 2.2%, up from 1.6% in FY18

Although the Agency did not meet the EEOC target of 12% for PWD, EPA exceeded the target of 2% for PWTD in FY19. As part of this national priority, OCR and OHR are promoting the increased use of the Schedule A Hiring Authority. Much of this effort will actively take place during FY20.

| General Physical Scientist (1301) | 118 | 5.76% | 121 | 6.00% | +3 |

Analysis comparing the participation rates in fiscal years 18 and 19 indicated that PWD had increased participation rates for three major occupations:

- Biologist (0401)
- Attorney / Advisor (0905)
- General Physical Scientist (1301)

Analysis comparing the participation rates in fiscal years 18 and 19 indicated that PWD had decreases in participation rates for three major occupations:

- Environmental Protection Specialist (0028)
- Misc. Administration and Program Specialist (0301)
- Environmental Engineer (0819)

Table 4: Persons with Targeted Disabilities – Comparison of FY18 to FY19

Analysis comparing the participation rates in fiscal years 18 and 19 indicated that PWTD had increase in participation rates for all seven major occupations.

Details regarding EPA's affirmative action plan for PWD and PWTD (referred to as Part J) will be part of the full report. Due to length, that section is not included in the Executive Summary.

Part F – Certification of Establishment of Continuing Equal Employment Opportunity Programs

Certification of Establishment of

Continuing Equal Employment Opportunity Programs

I, Vicki A. Simons, Director of the Office of Civil Rights, am the Principal EEO Director/Official for the U.S. Environmental Protection Agency (EPA).

The annual self-assessment of EPA programs relative to Section 717 of the Civil Rights Act of 1964 and Section 501 of the Rehabilitation Act of 1973 against the essential elements, as prescribed by the Management Directive 715 (MD-715), has been completed. If an essential element was not fully compliant with MD-715 standards, a subsequent evaluation was conducted. As appropriate, EPA's plans for attaining the essential elements of a model EEO program are included with this Federal Agency Annual EEO Program Status Report.

EPA has also analyzed its workforce profiles and will conduct barrier analyses aimed at detecting whether any management or personnel policy, procedure, or practice is operating to disadvantage any group based on race, national origin, gender, or disability. EEO Plans to Eliminate Identified Barriers, as appropriate, are included with this Federal Agency Annual EEO Program Status Report.

I certify that proper documentation of this assessment is in place and is being maintained for U.S. Equal Employment Opportunity Commission (EEOC) review upon request.

Signature of Principal EEO Director/Official Certifies that this Federal Agency Annual EEO Program Status Report is in compliance with EEOC MD-715

Report of Accomplishments and Modifications to Objective:

OCR continues to use the tools associated with the EPA Lean Management System (ELMS) to evaluate and streamline the process to issue FADs. Based on the creation of templates and processing milestones, EPA has reduced its processing time by 77% from last year. However, there is still room for improvement, which means that OCR will explore additional staffing resources on a temporary and permanent basis, volunteer FAD writers, and further refinement of its process using ELMS tools.

| Report of Accomplishments | and Modifications to Objective: |

In FY16, a pilot began to collect applicant flow data and assist OCR in analyzing associated recruitment efforts. The pilot was OGC-specific, rather than EPA-wide; it yielded incomplete data and triggers could not be determined.

In FY16-18, OGC collected application qualification rates, but not selection rates due to a technical processing issue. Through an interim workaround, OGC retroactively applied the selection rates and created a complete data set. This step began the process for capturing applicant flow data for Attorney Advisors.

In FY19, Deputy Civil Rights Official (DCRO) Executive Champions were identified. A benchmark for assessing EPA regions' hiring practices for Attorney Advisors was established. OGC, OECA, and the regions will begin using USA Jobs to hire Attorney Advisors by the end of FY2020.

Part I – Agency EEO Plan to Eliminate Identified Barriers

Please describe the status of each plan that the agency implemented to identify possible barriers in policies, procedures, or practices for employees and applicants by race, ethnicity, and gender.

If the agency did not conduct barrier analysis during the reporting period, please check the box.

Subject Matter Experts were identified from the Office of Human Resources, Hispanic Special Emphasis Program, and the Office of General Counsel to provide advice and guidance on the upward mobility analysis. A barrier analysis plan was developed. The Office of Civil Rights began analysis of workforce data from fiscal years 2019, 2018, and 2017 to conduct trend analysis on the upward mobility of Hispanics in the GS-13 to SES levels and in the Major Occupations which can lead to SES. | | | |

Part J – Special Program Plan for the Recruitment, Hiring, Advancement, and Retention of Persons with Disabilities

To capture agencies' affirmative action plans for persons with disabilities (PWD) and persons with targeted disabilities (PWTD), EEOC regulations (29 C.F.R. § 1614.203(e)) and MD-715 require agencies to describe how their plan will improve the recruitment, hiring, advancement, and retention of applicants and employees with disabilities. All agencies, regardless of size, must complete this Part of the MD-715 report.

Section I: Efforts to Reach Regulatory Goals

EEOC regulations (29 C.F.R. § 1614.203(d)(7)) require agencies to establish specific numerical goals for increasing the participation of persons with reportable and targeted disabilities in the federal government.

1. Using the goal of 12% as the benchmark, does your agency have a trigger involving PWD by grade level cluster in the permanent workforce? If "yes", describe the trigger(s) in the text box.

| a. Cluster GS-1 to GS-10 (PWD) | Yes 0 | No X |
|--|----------------------------|-----------------------|
| b. Cluster GS-11 to SES (PWD) | Yes X | No 0 |
| PWD in GS-11 to SES Cluster of the permanent world | vforce participate at 7.8% | or 1000 employees out |
| of 12843. This is a lower rate than the expected 12% | benchmark. Indicating a t | rigger. |

 Using the goal of 2% as the benchmark, does your agency have a trigger involving <u>PWTD</u> by grade level cluster in the permanent workforce? If "yes", describe the trigger(s) in the text box.

| a. Cluster GS-1 to GS-10 (PWTD) | Yes 0 | No X | |
|---------------------------------|-------|------|--|
| b. Cluster GS-11 to SES (PWTD) | Yes 0 | No X | |
| No triggers identified. | | | |

3. Describe how the agency has communicated the numerical goals to the hiring managers and/or recruiters.

The Agency utilizes EEOC's 12% PWD and 2% PWTD benchmarks for PWD as the goal.

The Office of Civil Rights (OCR) made the increased use of the Schedule A Hiring Authority a national priority and through this effort has communicated the hiring goals to management. Engagement on the hiring goals has happened at all management levels and with EPA senior leadership. Additionally, the Office of Human Resources (OHR) has provided briefings and other resources on the hiring goals and use of the Schedule A Hiring Authority.

Section II: Model Disability Program

Pursuant to 29 C.F.R. §1614.203(d)(1), agencies must ensure sufficient staff, training and resources to recruit and hire persons with disabilities and persons with targeted disabilities, administer the reasonable accommodation program and special emphasis program, and oversee any other disability hiring and advancement program the agency has in place.

A. PLAN TO PROVIDE SUFFICIENT & COMPETENT STAFFING FOR THE DISABILITY PROGRAM

1. Has the agency designated sufficient qualified personnel to implement its disability program during the reporting period? If "no", describe the agency's plan to improve the staffing for the upcoming year.

| | Yes X | No 0 |
|-----|-------|------|
| N/A | | |

2. Identify all staff responsible for implementing the agency's disability employment program by the office, staff employment status, and responsible official.

- 3. Has the agency provided disability program staff with sufficient training to carry out their responsibilities during the reporting period? If "yes", describe the training that disability program staff have received. If "no", describe the training planned for the upcoming year.
 - Yes X No 0

In FY19, EPA provided ongoing disability training to its disability program staff using various educational methods, such as online training, on-the-job training, and engagement on regular EEOC-facilitated Federal Exchange on Employment and Disability (FEED) calls.

Training topics included:

- EEOC Section 501 Affirmative Action Plan for the Employment of Individuals with Disabilities / Targeted Disabilities; Instruction Guidance
- Section 508 training on assistive technologies
- "EEO and Preventing Discrimination in the Workplace"
- SEPM training (two sessions), Schedule A, resources for job applicants, Computer/Electronic Accommodation Program (CAP), Workforce Recruitment Program (WRP)

B. PLAN TO ENSURE SUFFICIENT FUNDING FOR THE DISABILITY PROGRAM

1. Has the agency provided sufficient funding and other resources to successfully implement the disability program during the reporting period? If "no", describe the agency's plan to ensure all aspects of the disability program have sufficient funding and other resources.

Yes X No 0

Section III: Plan to Recruit and Hire Individuals with Disabilities

Pursuant to 29 C.F.R. § 1614.203(d)(1)(i) and (ii), agencies must establish a plan to increase the recruitment and hiring of individuals with disabilities. The questions below are designed to identify outcomes of the agency's recruitment program plan for PWD and PWTD.

A. PLAN TO IDENTIFY JOB APPLICANTS WITH DISABILITIES

1. Describe the programs and resources the agency uses to identify job applicants with disabilities, including individuals with targeted disabilities.

In FY19, the Agency utilized a variety of programs and resources to identify qualified job applicants with disabilities, including those with targeted disabilities. These included, but were not limited to:

- Veteran Employment Programs (e.g., Operations Warfighter, Wounded Warrior, Safe Harbor)
- Workforce Recruitment Program for college students with disabilities
- Special Emphasis Program Managers (SEPMs) and Disability Employment Advisory Council
- Volunteer Student Programs specifically targeting PWD/PWTD students
- SPPCs/Disability Employment Program Managers
- Careers and Disability Job Fairs
- Pathways-Presidential Management Fellows (PMF) Program
- Green Interns Program
- Pathways-Interns/Recent Graduates
- Disability Employment Program Advisory Council Monthly Meetings
- Memorandum of Understanding (MOU) Partnerships
- 2. Pursuant to 29 C.F.R. § 1614.203(a)(3), describe the agency's use of hiring authorities that take disability into account (e.g., Schedule A) to recruit PWD and PWTD for positions in the permanent workforce.

The Agency uses all available and appropriate hiring authorities to recruit and hire. Examples where PWD and PWTD are considered:

- Excepted Service, Schedule A: 5 Code of Federal Regulations (C.F.R.) section 213.3102(u)
- Disabled Veterans Affirmative Action Program (DVAAP)
- Veterans Recruitment Appointments (VRA)
- Pathways Programs
- Internal/External Outreach Programs/Activities and Career Fairs

3. When individuals apply for a position under a hiring authority that takes disability into account (e.g., Schedule A), explain how the agency (1) determines if the individual is eligible for appointment under such authority and (2) forwards the individual's application to the relevant hiring officials with an explanation of how and when the individual may be appointed.

EPA determines eligibility for individuals who apply using special hiring authorities, such as Schedule A or the 30% or more hiring authority for disabled veterans. The following process is used:

- Shared Service Centers (SSCs) review all incoming applicants who submit documentation designating their disability status pursuant to special hiring authority Schedule A (5 C.F.R. § 213.3102(u)).
- SSCs screen all applicants for minimum qualifications/selective factors to determine eligibility for noncompetitive, Schedule A appointments. A qualified person must have an intellectual disability, a severe physical disability, or a psychiatric disability. The Agency accepts, as proof of disability, appropriate documentation (e.g., records, statements, or other appropriate information) issued by a licensed medical professional (e.g., a physician or other medical professional duly certified by a state, the District of Columbia, or a U.S. territory, to practice medicine); a licensed vocational rehabilitation specialist (state or private); or any federal agency, state agency, or an agency of the District of Columbia or a U.S. territory that issues or provides disability benefits. For permanent or time-limited appointments, EPA also determines whether the individual is likely to succeed in the performance of the duties of the position for which he or she is applying.
- Disabled veterans with disability ratings of 30% or more may be considered under 30% or More Disabled Veteran Authority. <u>https://www.fedshirevets.gov/job-seekers/special-hiring-authorities/</u>
- Once eligibility is determined, the HR specialist notifies the hiring manager in accordance with applicable regulations for further consideration. SSC and HR specialists, along with SPPC, work closely with each hiring official using various communication methods to ensure that all pre- and post-appointment procedures are carried out and that applicants meet all legal and regulatory requirements for EPA position(s).
- Candidates may be selected and appointed with or without the typical formal interview process.
- Sometimes managers find Schedule A candidates on their own using the Workforce Recruitment Program or similar databases or by reaching out to local colleges, universities or disability resource centers. They can reach out and speak with candidates without the need of posting the position on USAJobs. In this case, the SSC will make a qualification determination after the interview before extending a formal offer. In addition, managers are encouraged to work with their Local and Senior National Reasonable Accommodation Coordinators as appropriate to ensure that any necessary accommodations are in place before the employee arrives on the job. The hiring manager notifies SSC of their selection. SSC extends an official offer based on the vacancy's selection factors and determines a start date based on dialogue with the manager and selectee. Prior to the entry-on-duty, a manager discusses and verifies the need for any accommodation with the selected individual.
- A hiring manager may fill the position based on the applicant's ability to perform the duties of the
 position as described in the position description. Applicants can be hired on 1) a temporary
 position with a Not to Exceed (NTE) date; 2) a non-temporary position with an NTE date; or 3) a
 non-temporary excepted service position. After two years of successful performance on the job,
 they may be non-competitively converted to a permanent appointment.
- 4. Has the agency provided training to all hiring managers on the use of hiring authorities that take disability into account (e.g., Schedule A)? If "yes", describe the type(s) of training and frequency. If "no", describe the agency's plan to provide this training.

Yes X No 0 N/A 0

In FY19, the Agency hosted two agency-wide training sessions: "Leveraging the Schedule A Hiring Authority for People with Disabilities," and "Ways to Mitigate Unconscious Bias about People with Disabilities in the Federal Workforce." The Schedule A hiring session was delivered by the Agency's Diversity and Inclusion Manager. A guest speaker, Michael Murray, Director, Employer Policy Team, Office of Disability Employment Policy, U.S. Department of Labor, delivered the session on unconscious bias. Both sessions discussed ways to utilize hiring authorities for persons with disabilities and combat unconscious biases and stereotypes to broaden positive perspectives. The training sessions were made available remotely, in-person, and were recorded. The videos are currently available on the Agency intranet site for all EPA employees. In addition, EPA regions and AAships conduct their own Disability, Reasonable Accommodation and Schedule A trainings and recognition activities.

B. PLAN TO ESTABLISH CONTACTS WITH DISABILITY EMPLOYMENT ORGANIZATIONS

1. Describe the agency's efforts to establish and maintain contacts with organizations that assist PWD, including PWTD, in securing and maintaining employment.

In FY19, EPA, Gallaudet University (GU), and the Rochester Institute of Technology/National Technical Institute for the Deaf (RIT/NTID) continued to operate on established Memorandums of Understanding. Through these MOUs, EPA continues to collaborate on the advancement of environmental education to improve awareness of national employment opportunities and other opportunities for individuals with disabilities. Students will also be given notice of publicly available career opportunities at EPA, such as paid and unpaid internships. Additional MOUs are being established for FY 20 to increase nation-wide partnerships.

Additionally, the Agency partnered with the U.S. State Department and Starbucks Coffee Company's Global Accessibility Office to facilitate an educational and inspirational workshop event. The purpose of the event with the State Department was to educate hiring managers and staff on best practices associated with working with individuals with disabilities.

EPA continues to work collaboratively with the Equal Employment Opportunity Commission, the Virginia Department of Vocational Rehabilitation and the Federal Exchange on Employment & Disability (FEED). EPA's Diversity and Inclusion Manager served on a panel during the June 2019 FEED meeting on "Communication Access to Federal Employees who are Deaf or Hard of Hearing". The panelists shared promising practices for hiring and retaining individuals who are deaf or hard of hearing, including the provision of reasonable accommodation to FEED participants, so employers can use the wealth of information and knowledge to recruit, hire, advance, and retain PWD in the federal workforce.

The Agency also maintains the use of additional resources, such as the Workforce Recruitment Program and shares best practices on the use of this program with Agency management throughout the year.

C. PROGRESSION TOWARDS GOALS (RECRUITMENT AND HIRING)

1. Using the goals of 12% for PWD and 2% for PWTD as the benchmarks, do triggers exist for PWD and/or PWTD among the new hires in the permanent workforce? If "yes", please describe the triggers below.

| a. | New Hires for Permanent Workforce (PWD) | Yes 0 | No X |
|----|--|-------|------|
| b. | New Hires for Permanent Workforce (PWTD) | Yes X | No 0 |

Table B-8: NEW HIRES by Type of Appointment

There were 13 PWTD hired in FY19, representing 1.6% of the total new hires. This indicates a trigger when compared to the 2% benchmark.

2. Using the qualified applicant pool as the benchmark, do triggers exist for PWD and/or PWTD among the new hires for any of the mission-critical occupations (MCO)? If "yes", please describe the triggers below.

| a. | New Hires for MCO (PWD) | Yes X | No 0 |
|----|--------------------------|-------|------|
| b. | New Hires for MCO (PWTD) | Yes X | No 0 |

For FY19, EPA utilized Table B7: Application and Hires for Major Occupations by Disability. In FY20, EPA will continue to make reasonable efforts to collect data on the Agency's Mission Critical Occupations.

PWD, triggers were identified in the following Major Occupation series:

- Environmental Protection Specialist (0028): Selection at 2.27% is less than expected compared to the qualified applicant pool rate of 5.52%.
- Misc. Administration and Program Specialist (0301): Selection at 4.00% is less than expected compared to the qualified applicant pool rate of 8.98%.
- Management/Program Analyst (0343): Selection at 1.89% is less than expected compared to the qualified applicant pool rate of 8.44%.
- **General Biological Science (0401)**: Selection at 1.45% is less than expected compared to the qualified applicant pool rate of 4.25%.
- Environmental Engineer (0819): Selection at 0.00% is less than expected compared to the qualified applicant pool rate of 3.01%.

PWTD, triggers were identified in the following Major Occupation series:

- Environmental Protection Specialist (0028): Selection at 2.27% is less than expected compared to the qualified applicant pool rate of 2.87%.
- Misc. Administration and Program Specialist (0301): Selection at 0.00% is less than expected compared to the qualified applicant pool rate of 4.28%.
- Management/Program Analyst (0343): Selection at 0.00% is less than expected compared to the qualified applicant pool rate of 3.71%.
- **General Biological Science (0401)**: Selection at 0.48% is less than expected compared to the qualified applicant pool rate of 2.02%.
- Environmental Engineer (0819): Selection at 0.00% is less than expected compared to the qualified applicant pool rate of 1.91%.
- 3. Using the relevant applicant pool as the benchmark, do triggers exist for PWD and/or PWTD among the qualified *internal* applicants for any of the mission-critical occupations (MCO)? If "yes", please describe the triggers below.

| a. | Qualified Applicants for MCO (PWD) | Yes X | No 0 |
|----|-------------------------------------|-------|------|
| b. | Qualified Applicants for MCO (PWTD) | Yes X | No 0 |

Table B-9: RELEVANT APPLICANT POOL for Major/Mission Critical Occupations by Disability

PWD, triggers were identified in the following Major Occupation series:

- **Misc. Administration and Program Specialist (0301):** PWD Qualified Internal Applicants at 4.08% is less than expected compared to the PWD Applications Received at 8.25%.
- Management/Program Analyst (0343): PWD Qualified Internal Applicants at 3.02% is less than expected compared to the PWD Applications Received at 5.50%.

Section IV: Plan to Ensure Advancement Opportunities for Employees with Disabilities

Pursuant to 29 C.F.R §1614.203(d)(1)(iii), agencies are required to provide sufficient advancement opportunities for employees with disabilities. Such activities might include specialized training and mentoring programs, career development opportunities, awards programs, promotions, and similar programs that address advancement. In this section, agencies should identify, and provide data on programs designed to ensure advancement opportunities for employees with disabilities.

A. ADVANCEMENT PROGRAM PLAN

1. Describe the agency's plan to ensure PWD, including PWTD, have sufficient opportunities for advancement.

EPA informs all employees of advancement opportunities through 1) the Talent Hub website (a centralized experiential learning resource that promotes a range of career development opportunities available across the Agency); 2) job sharing; and 3) fee/non-fee based in-person/ online training. Opportunities are marketed through email to all users, office announcements, intranet postings, and newsletters. Additional opportunities may include fee/non-fee based in person/online training. Employees are encouraged to participate in skill-building trainings and courses related to federal employment such as how to search through USAJOBS, resume writing, and improving interviewing skills are available.

Technical Assistance Visits: OCR plans to schedule visits to various program offices and regions in FY20. These visits will serve to educate managers on how they may support opportunities for advancement and retain employees with disabilities, provide information on the Schedule A hiring authority, and stress the importance of timely conversion for those participating in the program.

Opportunities to Implement Strategies to Mitigate Unconscious Bias: In FY18, EPA finalized its 2018-2022 Strategy for Mitigating Unconscious Bias (MUB) in the human resources selection process. MUB includes any human resources process or decision made regarding recruitment, hiring, promotion, awards, development, advancement, and retention, including PWD and PWTD. The MUB Strategy aligns with EPA's 2017-2021 Diversity and Inclusion Strategic Plan; Executive Order 13583 – Establishing a Coordinated Government-wide Initiative to Promote Diversity and Inclusion in the Federal Workforce, and the 2016 Report on Reducing the Impact of Bias in the STEM Workforces (released jointly by the OPM and the White House Office of Science & Technology Policy).

The MUB Strategy will help EPA employees: 1) recognize and mitigate potential unconscious bias that may exist in the workplace; 2) raise awareness among EPA leaders, managers, supervisors, and EPA personnel about the presence and impact of unconscious bias; and 3) offer a toolkit of proven strategies to mitigate unconscious bias.

The overarching goals of the EPA's MUB include: 1) reducing unconscious bias in the HR selections process; 2) building unconscious bias awareness and mitigation skills among employees; 3) identifying and measuring the effectiveness of strategies to mitigate unconscious bias to determine the success of the strategy. The scope of this strategy is specifically focused on HR selections.

Diversity and Inclusion Strategic Plan: EPA's 2017-2021 Diversity and Inclusion Strategic Plan (DISP) guides the Agency's efforts in creating and maintaining a high-performing workforce that embraces diversity and inclusion and empowers all employees to achieve their full potential. The multi-year plan outlines goals, priorities, specific action items and measures that were developed by senior leadership and the EPA Human Resources community. The DISP received concurrence from EPA's Diversity and Inclusion Advisory Committee (DIAC), a subcommittee of the Human Resources Council. DISP goals are outlined below.

Goal 1: Diversify the federal workforce through active engagement of leadership: a) senior leaders will conduct regular informational sessions open to all employees to share information on training and career development opportunities and resources; b) Office Mission Support (OMS)will ensure that all hiring managers receive training on the use of appropriate hiring authorities and flexibilities; c) review of participation in leadership development programs and develop strategies to eliminate any potential barriers to participation will be conducted.

Goal 2: Include and engage everyone in the workplace: senior leadership and managers will use Talent Hub to promote and encourage all employees to apply for temporary, full-time detail assignments, part-time projects/special assignments, temporary promotions, SES rotations, and other developmental assignments.

Goal 3: Optimize inclusive diversity efforts using data-driven approaches: a) utilize the MD715 reports, applicant flow data, and focus groups to identify actions that can be taken to address any

potential barriers to career development and advancement identified by the Agency; b) senior leaders will use the results of the annual Employee Viewpoint Surveys and other workforce feedback to be responsive to employees' concerns regarding opportunities for employee training, development and advancement.

Stepping Up to Supervision: Continue to offer this training to all employees interested in learning about the roles and responsibilities of formal leadership. Each participant receives formal feedback through a multi-rater 360 assessment and is encouraged to build a development plan to help map their learning plans towards their career goals and objectives.

EPA's Successful Leader's Program: Mandatory program for newly-promoted or hired supervisors and managers. The program contains information regarding the various hiring authorities (such as Schedule A), the Disability Hiring Tool such as the WRP as a means to broaden recruitment efforts, Computer/Electronic Accommodations Program (CAP), as well as training on the Reasonable Accommodation procedures.

Miscellaneous: EPA's Fed Talent system, a learning management system that interfaces with the Agency's HR system of record, allows EPA to track selectees in its training and coaching programs and allow offices to report the type of employee learning opportunities afforded to staff career development.

B. CAREER DEVELOPMENT OPPORTUNITIES

1. Please describe the career development opportunities that the agency provides to its employees.

EPA supports the career development of its employees through the following programs:

- Fellowship Programs
- Mentoring Programs
- Coaching Programs
- Leadership Development Training Programs
- Professional Development Training Programs
- Detail Program
- 2. In the table below, please provide the data for career development opportunities that require competition and/or supervisory recommendation/approval to participate.

EPA does not currently capture data for Career Development Opportunities (CDOs) that require competition and/or supervisory recommendation/approval to participate. This is a National Priority for EPA.

| Career Development Opportunities | Total Participants | | PWD | | PWTD | |
|---|--------------------|------------------|-------------------|------------------|-------------------|------------------|
| | Applicants (#) | Selectees (#) | Applicants (%) | Selectees (%) | Applicants (%) | Selectees (%) |

 Do triggers exist for PWD among the applicants and/or selectees for any of the career development programs? (The appropriate benchmarks are the relevant applicant pool for the applicants and the applicant pool for selectees.) If "yes", describe the trigger(s) in the text box.

| a. Applicants (PWD) | Yes 0 | No 0 | N/A X | | |
|---|-------|------|-------|--|--|
| b. Selections (PWD) | Yes 0 | No 0 | N/A X | | |
| Data is not available for FY19. EPA will make reasonable efforts to address this in FY20. | | | | | |

4. Do triggers exist for PWTD among the applicants and/or selectees for any of the career development programs identified? (The appropriate benchmarks are the relevant applicant pool for applicants and the applicant pool for selectees.) If "yes", describe the trigger(s) in the text box.

| a. | Applicants | (PWTD) | Yes 0 | No 0 | N/A X | |
|---|------------|--------|-------|------|-------|--|
| b. | Selections | (PWTD) | Yes 0 | No 0 | N/A X | |
| Data is not available for FY19. EPA will make reasonable efforts to address this in FY20. | | | | | | |

C. AWARDS

1. Using the inclusion rate as the benchmark, does your agency have a trigger involving PWD and/or PWTD for any level of the time-off awards, bonuses, or other incentives? If "yes", please describe the trigger(s) in the text box.

| a. | Awards, Bonuses, & Incentives (PWD) | Yes X | No 0 |
|----|--------------------------------------|-------|------|
| b. | Awards, Bonuses, & Incentives (PWTD) | Yes 0 | No X |

Comparing Time-off awards of 1-9 hours for PWD/PWTD (Table B13) to Total Workforce for PWD/PWTD (Table B1), there are triggers in the following Awards, Bonuses and Incentives categories:

<u>Time-off Awards 1-9 hours:</u> PWD received awards at 22.54% compared to people without disabilities at 23.32%.

2. Using the inclusion rate as the benchmark, does your agency have a trigger involving PWD and/or PWTD for quality step increases or performance-based pay increases? If "yes", please describe the trigger(s) in the text box.

| a. | Pay Increases (PWD) | Yes X | No 0 |
|----|----------------------|-------|------|
| b. | Pay Increases (PWTD) | Yes X | No 0 |

Comparing Employee Recognition and Awards for PWD/PWTD (Table 13) to Total Workforce for PWOD (Table B1), there are triggers in the following Awards, Bonuses and Incentives categories:

Qualify Step Increase: PWD received awards at 2.11% compared to people without disabilities at 2.47%.

PWTD received awards at 1.60% compared to people without disabilities at 2.46%.

3. If the agency has other types of employee recognition programs, are PWD and/or PWTD recognized disproportionately less than employees without disabilities? (The appropriate benchmark is the inclusion rate.) If "yes", describe the employee recognition program and relevant data in the text box.

| a. | Other Types of Recognition (PWD) | Yes X | No 0 | N/A 0 |
|----|-----------------------------------|-------|------|-------|
| b. | Other Types of Recognition (PWTD) | Yes X | No 0 | N/A 0 |

Comparing Employee Recognition and Awards for PWD/PWTD (Table 13) to Total Workforce for PWOD (Table B1), there are triggers in the following Awards, Bonuses and Incentives categories:

<u>Cash Awards \$501 +:</u> PWD received awards at 82.63% compared to people without disabilities at 89.62%.

PWTD received awards at 80.77% compared to people without disabilities at 89.23%.

D. PROMOTIONS

 Does your agency have a trigger involving PWD among the qualified internal applicants and/or selectees for promotions to the senior grade levels? (The appropriate benchmarks are the relevant applicant pool for qualified internal applicants and the qualified applicant pool for selectees.) For non-GS pay plans, please use the approximate senior grade levels. If "yes", describe the trigger(s) in the text box. Applicant flow data for the SES is not currently collect along with GS-13, 14, and 15 data. The Agency will continue to make reasonable efforts to collect this data in the future.

| a. | SES | | | | |
|----|-------|-------------------------------------|-------|------|-------|
| | i. | Qualified Internal Applicants (PWD) | Yes 0 | No 0 | N/A X |
| | ii. | Internal Selections (PWD) | Yes 0 | No0 | N/A X |
| b. | Grade | GS-15 | | | |

| C. | Grade | GS-14 | | | |
| | i. | Qualified Internal Applicants (PWD) | Yes X | No 0 | N/A 0 |
| | ii. | Internal Selections (PWD) | Yes X | No 0 | N/A 0 |
| d. | Grade | GS-13 | | | |
| | | Qualified Internal Applicants (PWD) | Yes X | No 0 | N/A 0 |
| | ii. | Internal Selections (PWD) | Yes X | No 0 | N/A 0 |

For FY19, EPA utilized Table B11: Internal Selections for Senior Level (GS-13, 14, 15) Positions by Disability. Applicant flow data for the SES is not currently collect along with GS-13, 14, and 15 data. In FY20, EPA will continue to make reasonable efforts to collect data on the Agency's Major Occupations.

Using PWD Applications Received when analyzing the applicant flow of internal applicants and/or selections for promotions by grade (Table B11), the following triggers are identified for GS-13 thru GS-15:

- **GS-13:** PWD Qualified Internal Applicants at 2.48% is less than expected compared to the PWD Applications Received at 5.28%.
 - PWD Selected Internal Applicants at 2.44% is less than expected compared to the qualified Applicants at 2.48%.
- GS-14: PWD Qualified Internal Applicants at 2.64% is less than expected compared to the PWD Applications Received at 3.44%.

PWD Selected Internal Applicants at 0.68% is less than expected compared to the Qualified Applicants at 2.64%. This indicates a trigger.

- GS-15: PWD Qualified Internal Applicants at 2.80% is less than expected compared to the PWD Applications Received at 4.36%. This indicates a trigger.
 PWD Selected Internal Applicants at 0.00% is less than expected compared to the Qualified Applicants at 2.80%. This indicates a trigger.
 - 2. Does your agency have a trigger involving <u>PWTD</u> among the qualified *internal* applicants and/or selectees for promotions to the senior grade levels? (The appropriate benchmarks are the relevant applicant pool for qualified internal applicants and the qualified applicant pool for selectees.) For non-GS pay plans, please use the approximate senior grade levels. If "yes", describe the trigger(s) in the text box.

Applicant flow data for the SES is not currently collect along with GS-13, 14, and 15 data. The Agency will continue to make reasonable efforts to collect this data in the future.

| a. | SES | | | |
|----|--|----------|------|-------|

| | Qualified Internal Applicants (PWT | D) Yes X | No 0 | N/A X |
| | ii. Internal Selections (PWTD) | Yes X | No 0 | N/A X |
| | | | | |

EPA used Table B11: Internal Selections for Senior Level Positions, to analyze the applicant flow of internal applicants and/or selections for promotions by grade for PWTD. The senior level analysis includes grades 13-15. The SES is excluded from this analysis because relevant data was not collected for this series in FY19. EPA will make reasonable efforts to collect this data in FY20.

• **GS-13:** PWTD Qualified Internal Applicants at 1.49% is less than expected compared to the PWTD Applications Received at 2.16%. This indicates a trigger.

PWTD Selected Internal Applicants at 1.22% is less than expected compared to the Qualified Applicants at 1.49%. This indicates a trigger.

• **GS-14:** PWTD Qualified Internal Applicants at 1.13% is less than expected compared to the PWTD Applications Received at 1.33%. This indicates a trigger.

PWTD Selected Internal Applicants at 0.00% is less than expected compared to the Qualified Applicants at 1.13%. This indicates a trigger.

• **GS-15:** PWTD Qualified Internal Applicants at 0.51% is less than expected compared to the PWTD Applications Received at 1.01%. This indicates a trigger.

PWTD Selected Internal Applicants at 0.00% is less than expected compared to the Qualified Applicants at 0.51%. This indicates a trigger.

3. Using the qualified applicant pool as the benchmark, does your agency have a trigger involving <u>PWD</u> among the new hires to the senior grade levels? For non-GS pay plans,

please use the approximate senior grade levels. If "yes", describe the trigger(s) in the text box. (Table B11 and B8)

Section V: Plan to Improve Retention of Persons with Disabilities

To be a model employer for persons with disabilities, agencies must have policies and programs in place to retain employees with disabilities. In this section, agencies should: (1) analyze workforce separation data to identify barriers retaining employees with disabilities; (2) describe efforts to ensure accessibility of technology and facilities; and (3) provide information on the reasonable accommodation program and workplace personal assistance services.

A. VOLUNTARY AND INVOLUNTARY SEPARATIONS

 In this reporting period, did the agency convert all eligible Schedule A employees with a disability into the competitive service after two years of satisfactory service (5 C.F.R. § 213.3102(u)(6)(i))? If "no", please explain why the agency did not convert all eligible Schedule A employees.

Yes 0 No X N/A 0

In FY19, EPA had four (4) Schedule A employees who were eligible for conversion to the competitive service but have not yet been converted. The office of Civil Rights will investigate why these conversions have not occurred.

2. Using the inclusion rate as the benchmark, did the percentage of <u>PWD</u> among voluntary and involuntary separations exceed that of persons without disabilities? If "yes", describe the trigger below.

| a. | Voluntary Separations (PWD) | Yes X | No 0 |
|----|-------------------------------|-------|------|
| b. | Involuntary Separations (PWD) | Yes X | No 0 |

<u>PWD Voluntary Separations (Table B1 and B14)</u>: The PWD inclusion rate for Voluntary Separations is 7.63%. The People Without Disabilities inclusion rate for Voluntary Separations is 6.54%. The PWD inclusion rate is greater than the People Without Disability inclusion rate. This indicates a trigger.

PWD Involuntary Separations (Tables B1 and B14): The PWD inclusion rate for Involuntary Separations is 0.61%. The People Without Disabilities inclusion rate for Involuntary Separations is 0.09%. The PWD inclusion rate is greater than the People Without Disability inclusion rate. This indicates a trigger.

3. Using the inclusion rate as the benchmark, did the percentage of <u>PWTD</u> among voluntary and involuntary separations exceed that of persons without targeted disabilities? If "yes", describe the trigger below.

| a. Voluntary Separations (PWTD) | Yes X | No 0 | |
|-----------------------------------|-------|------|--|
| b. Involuntary Separations (PWTD) | Yes X | No 0 | |

PWTD Voluntary Separations (Tables B1 and B14): The PWTD inclusion rate for Voluntary Separations is 7.69%. The People Without Targeted Disabilities inclusion rate for Voluntary Separations is 6.61%. The PWTD inclusion rate is greater than the People Without Targeted Disabilities inclusion rate. This indicates a trigger.

PWTD Involuntary Separations (Tables B1 and B14): The PWTD inclusion rate for Involuntary Separations is 0.64%. The People Without Targeted Disabilities inclusion rate for Involuntary Separations is 0.12%. The PWTD inclusion rate is greater than the People Without Targeted Disabilities inclusion rate. This indicates a trigger.

4. If a trigger exists involving the separation rate of PWD and/or PWTD, please explain why they left the agency using exit interview results and other data sources.

Data table B14: Separations demonstrate that the majority of PWD/PWTD separations were voluntary. OCR and OHR will make reasonable efforts to collect and review exit interview data in FY20.

B. ACCESSIBILITY OF TECHNOLOGY AND FACILITIES

Pursuant to 29 C.F.R. § 1614.203(d)(4), federal agencies are required to inform applicants and employees of their rights under Section 508 of the Rehabilitation Act of 1973 (29 U.S.C. § 794(b), concerning the accessibility of agency technology, and the Architectural Barriers Act of 1968 (42 U.S.C. § 4151-4157), concerning the accessibility of agency facilities. In addition, agencies are required to inform individuals where to file complaints if other agencies are responsible for a violation.

1. Please provide the internet address on the agency's public website for its notice explaining employees' and applicants' rights under Section 508 of the Rehabilitation Act, including a description of how to file a complaint.

The Accessibility Statement explains employees' and applicants' rights under Section 508 of the Rehabilitation Act. EPA's Accessibility Statement can be found on EPA's website: https://www.epa.gov/accessibility/epa-accessibility-statement

EPA follows the same process for Section 508 complaints as for other complaints related to disability discrimination. Details can be found on EPA's website: <u>https://www.epa.gov/ocr/employment-complaint-resolutions</u>

2. Please provide the internet address on the agency's public website for its notice explaining employees' and applicants' rights under the Architectural Barriers Act, including a description of how to file a complaint.

EPA's website: <u>https://www.epa.gov/accessibility</u> provides a link to the Unites States Access Board (<u>https://www.access-board.gov</u>) which provides information on employees' and applicants' rights under the Architectural Barriers Act, including a description of how to file a complaint.

3. Describe any programs, policies, or practices that the agency has undertaken, or plans on undertaking over the next fiscal year, designed to improve accessibility of agency facilities and/or technology.

EPA has revised its Section 508 Policy and Procedures for Compliance to address the Section 508 Refresh. These directives are currently undergoing a final technical review. These revised set of procedures will focus on the acquisition, testing and exceptions processes. EPA anticipates submitting all for Agency-wide review within FY20.

EPA Compliance Assessment and Remediation Plan: EPA's Compliance Assessment and Remediation Plan (CARP) aims to help EPA assess and enhance the accessibility of its existing Information and Communication Technology (ICT), develop a baseline from which to measure improvements, and report bi-annually to the Office of Management and Budget (OMB). CARP takes a phased approach with each phase focusing on certain types of ICT. Activities include:

- Conduct an inventory of EPA's ICT and prioritize ICT for assessments.
- Assess the inventoried ICTs' compliance.
- Develop and implement remediation plans to address concerns identified during the assessments.
- Report compliance within EPA and to OMB.

In FY19 the inventory of internal enterprise systems was completed, and system owners began assessing for Section 508 Compliance. In FY20, EPA will complete the inventory of internal nonenterprise systems and applications and begin the assessment of those systems. Also, as part of the CARP effort the EPA Section 508 Program has developed and piloted a formal process for reviewing Accessible Conformance Reports (ACR). This process can be used to assess the level of conformance to Section 508 claimed by the vendors before purchasing.

EPA Accessibility Forum (Section 508 Training Campaign): In FY19, the EPA Section 508 conducted 14 live webinars for EPA employees on topics ranging from an introduction to Section 508 to Advanced Accessible PDF Creation. In FY20 the 508 Program plans to expand our training curriculum to include specific role-based trainings. These trainings would be targeted at employees who play specific roles in the acquisition, development, use or maintenance of Information Communications Technology ICT.

C. REASONABLE ACCOMMODATION PROGRAM

Pursuant to 29 C.F.R. § 1614.203(d)(3), agencies must adopt, post on their public website, and make available to all job applicants and employees, reasonable accommodation procedures.

1. Please provide the average time frame for processing initial requests for reasonable accommodations during the reporting period. (Please do not include previously approved requests with repetitive accommodations, such as interpreting services.

In FY19, the Agency processed and concluded 508 of the 516 request (or 98.4%) within the time frames identified in EPA Reasonable Accommodation (RA) Procedures with an average processing time of 20.5 days. The 516 requests are the number of FY19 requests that were completed during FY19 and 107 requests were not concluded in FY19 and carried over into FY20 to be concluded.

The Agency has attained a 90% or greater processing rate for nine consecutive years.

The most requested items or types of accommodations made in FY 2019 were:

- 1. Telework (episodic, full-time, additional day, etc.) with 237 requests
- 2. Sit/stand desks with 77 requests
- 3. Assistive desks equipment as well as ergonomic equipment such as ergonomic keyboards (combined) with 69 requests
- 4. Modified or flexible work schedule (start/end times) with 52 requests
- 5. Facilities related requests such as small refrigerators, space heaters, workspace modification, and changes to lighting with 49 requests

The National Reasonable Accommodation Coordinator (NRAC) and Assistant NRAC delivered 20 training sessions to a total of 746 participants including employees and management. The 20 training sessions included Agency-Wide trainings delivered in person and via teleconference meeting software, as well as trainings for Region 9, Region 10, Cincinnati, Office of Enforcement and Compliance Assurance (OECA), Office of Chemical Safety and Pollution Prevention (OCSPP), Office of Land and Emergency Management (OLEM) and Office of General Counsel (OCR).

 Describe the effectiveness of the policies, procedures, or practices to implement the agency's reasonable accommodation program. Some examples of an effective program include timely processing requests, timely providing approved accommodations, conducting training for managers and supervisors, and monitoring accommodation requests for trends. FY19 was a record year for the Reasonable Accommodation (RA) program as a total of 665 requests were processed, an increase of 44.8% from the previous fiscal year. Of the 665 total requests, 623 were initiated in FY19 and 42 were initiated in FY18. The requests initiated in FY18 were in pending status on September 30, 2018 and were completed in FY19.

The following is a summary and analysis of the FY19 RA request. Of the 623 FY2019 requests:

- 516 requests were initiated, processed, and concluded in FY19
- 457 requests were approved
- 13 requests were denied
- 31 requests were withdrawn by the employer
- 2 requests were denied under reasonable accommodation (RA) but offered some relief outside of the RA process
- 13 requests were closed due to the employees who made the request passing away, retiring, or separating from the Agency before the reasonable accommodation process was concluded

Additionally, of the 623 FY19 request, four (4) were from new employees and one (1) was from an applicant. 107 requests remain in pending status and have been carried over to FY20 to continue processing.

Reasonable Accommodation training for managers and supervisors for FY19 is listed below: There were 20 Trainings conducted for 746 people.

EPA has revised its Section 508 Policy and Procedures for Compliance to address the Section 508 Refresh. These directives are currently undergoing a final technical review. These revised set of procedures will focus on the acquisition, testing and exceptions processes. EPA anticipates submitting all for Agency-wide review within FY20.

EPA Compliance Assessment and Remediation Plan: EPA's Compliance Assessment and Remediation Plan (CARP) aims to help EPA assess and enhance the accessibility of its existing Information and Communication Technology (ICT), develop a baseline from which to measure improvements, and report bi-annually to the Office of Management and Budget (OMB). CARP takes a phased approach with each phase focusing on certain types of ICT. Activities include:

- Conduct an inventory of EPA's ICT and prioritize ICT for assessments.
- Assess the inventoried ICTs' compliance.
- Develop and implement remediation plans to address concerns identified during the assessments.
- Report compliance within EPA and to OMB.

In FY19 the inventory of internal enterprise systems was completed, and system owners began assessing for Section 508 Compliance. In FY20, EPA will complete the inventory of internal nonenterprise systems and applications and begin the assessment of those systems. D. PERSONAL ASSISTANCE SERVICES ALLOWING EMPLOYEES TO PARTICIPATE IN THE WORKPLACE

Pursuant to 29 C.F.R. § 1614.203(d)(5), federal agencies, as an aspect of affirmative action, are required to provide personal assistance services (PAS) to employees who need them because of a targeted disability, unless doing so would impose an undue hardship on the agency.

1. Describe the effectiveness of the policies, procedures, or practices to implement the PAS requirement. Some examples of an effective program include timely processing

requests for PAS, timely providing approved services, conducting training for managers and supervisors, and monitoring PAS requests for trends.

FY2019, was the first year that EPA tracked Personal Assistance Services (PAS) requests. There were two (2) PAS requests for travel assistance. The Office of Civil Rights also coordinated a workgroup to develop clear guidelines to assist decision makers and others involved with PAS processing to ensure greater efficiency and efficacy in delivering this service.

E. 2019 CAP ANNUAL STAKEHOLDERS REPORT AND AGENCY ACCOMMODATIONS PROFILE

EPA has had a memorandum of understanding (MOU) with the Department of Defense and the Computer/Electronics Accommodation Program (CAP) since September 20, 2001. During FY19, CAP provided 78 reasonable accommodations (assistive technology, training, needs assessments, etc.) to 37 EPA employees. The total costs of the accommodations were \$50,853.07 and were provided free of charge to EPA. CAP has provided 1697 reasonable accommodations to EPA totaling \$1,198,370.04 worth during this 19-year partnership.

Section VI: EEO Complaint and Findings Data

A. EEO COMPLAINT DATA INVOLVING HARASSMENT

1. During the last fiscal year, did a higher percentage of PWD file a formal EEO complaint alleging harassment, as compared to the government-wide average?

Yes 0 No X N/A 0

2. During the last fiscal year, did any complaints alleging harassment based on disability status result in a finding of discrimination or a settlement agreement?

Yes X No 0 N/A 0

3. If the agency had one or more findings of discrimination alleging harassment based on disability status during the last fiscal year, please describe the corrective measures taken by the agency.

Agency had to pay \$8000 in nonpecuniary compensatory damages and restore 20 hours of annual leave and 16 hours of sick leave to the Complainant and required 8 hours of training for the Responsible Management Official (RMO).

B. EEO COMPLAINT DATA INVOLVING REASONABLE ACCOMMODATION

1. During the last fiscal year, did a higher percentage of PWD file a formal EEO complaint alleging failure to provide a reasonable accommodation, as compared to the government-wide average?

Yes 0 No X N/A 0

2. During the last fiscal year, did any complaints alleging failure to provide reasonable accommodation result in a finding of discrimination or a settlement agreement?

Yes X No 0 N/A 0

3. If the agency had one or more findings of discrimination involving the failure to provide a reasonable accommodation during the last fiscal year, please describe the corrective measures taken by the agency.

Case #1 – Required 8 hours of training for RMO on responsibilities and obligations under the Rehabilitation Act to provide reasonable accommodation to qualified Agency employees with disabilities, and required to create a uniform and simplified process to request and administer in-person interpretive services.

Case #2 – Agency to pay \$8000 in nonpecuniary compensatory damages and restore 20 hours of annual leave and 16 hours of sick leave to the Complainant and required 8 hours of training for the RMO on her responsibilities and obligations under the Rehabilitation Act to provide reasonable accommodation to qualified Agency employees with disabilities.

Section VII: Identification and Removal of Barriers

Element D of MD-715 requires agencies to conduct a barrier analysis when a trigger suggests that a policy, procedure, or practice may be impeding the employment opportunities of a protected EEO group.

1. Has the agency identified any barriers (policies, procedures, and/or practices) that affect employment opportunities for PWD and/or PWTD?

| Yes 0 No X |
|---|
| Although the Agency has not yet identified the specific barrier(s), EPA has developed a formal Barrier |
| Analysis Plan on Improving the Use of the Schedule A Appointing Authority, which was approved |
| by EPA Management, and EPA is working towards identifying and addressing any barriers. |

2. Has the agency established a plan to correct the barrier(s) involving PWD and/or PWTD?

Yes 0 No X N/A 0

3. Identify each trigger and plan to remove the barrier(s), including the identified barrier(s), objective(s), responsible official(s), planned activities, and, where applicable, accomplishments.

| accon | ipiisninents. |
|----------|---|
| | There were several triggers identified that led us to look at the hiring of individuals with disabilities and the use of the Schedule A hiring authority in major occupations including: |
| | 1) Less than expected representation of people with disabilities and targeted disabilities in the Agency, particularly in Major Occupations. |
| | 2) The overall representation of people with targeted disabilities has fallen from 2.6% in FY 2015 falling each of the last four years down to 2.3% for FY 2019. |
| Triggers | 3) Agency data on the use of the Schedule A (Disability) hiring authority gathered through our analysis suggested that it was utilized infrequently. In FY 2019, only 2.2% of positions were filled using the Schedule A Disability hiring authority (22 out of 982 total). |
| | 4) Data shows that most EPA regions and AAships also did not actively utilize the Schedule A (Disability) hiring authority in FY 2017 or FY 2018. |
| | 5) Preliminary data suggests that many managers have not heard about Schedule A and its many benefits, and that many senior managers and servicing human resources processing representatives are not actively marketing or promoting the use of the Schedule A (Disability) authority. |

| Barriers | Preliminary data suggests there are barriers. We will continue investigating are working to investigate the matter as part of a formal Agency-wide barrier analysis. Here are some of the principle questions that we will work to examine: 1) Is there a lack of knowledge among managers and hiring officials about the Schedule A program and its benefits? 2) Are there any hiring and appointment processes in place that do not support or encourage the use of hiring people with disabilities through Schedule A? 3) Are there attitudinal barriers about people with disabilities? 4) Is there a consistent message from the Office of Civil Rights, Office of Human Resources, and Shared Service Centers about the Schedule A program? 5) Are Senior Leaders, EEO Officers, Human Resource Directors, and Special Emphasis Program Managers in regions adequately knowledgeable and involved into the program as advocates for the program? 6) Does the Agency give recognition to regions/AAships that do a good job in this area? 7) Does the Agency ensure strong measures are taken that foster the success of Schedule A candidates (e.g. reasonable accommodations already in place and a mentor assigned)? 8) Are there technological challenges among potential hiring officials and their response that are inhibiting the way of Schedule A to include and a mentor assigned)? |
|--------------|---|
| | assigned)? |
| | 10) Do managers and hiring officials receive training on Schedule A? |
| Objective(s) | To increase the EPA's utilization of the Schedule A appointing authority for individuals with disabilities selected as permanent employees in major occupations. |

Please explain the factor(s) that prevented the agency from timely completing any of the planned activities.

EPA developed a Barrier Analysis Plan in FY 2019 which sets forth a blueprint for identifying and addressing barriers. Last year's planned activity for FY 2019 has been broken into steps and Step One was completed in FY19. The Agency is utilizing an A3 major project tracking tool to chart and carefully monitor progress on next steps, and a Senior Executive Champion has been assigned.

4. For the planned activities that were completed, please describe the actual impact of those activities toward eliminating the barrier(s).

A barrier analysis team has been established, lead by two SES-level Executive Champions. A specific plan has been developed and approved by EPA management, and the team is making progress and is on track to meet its goals for FY 2020.

5. If the planned activities did not correct the trigger(s) and/or barrier(s), please describe how the agency intends to improve the plan for the next fiscal year.

The Agency's Barrier Analysis plan implementation is in progress.

The EPA is dedicated to selecting the best qualified candidate, including disabled veterans, for its internal advancement opportunities. Internal and external training sessions are made available to all employees including disabled veterans. These training opportunities are available in person or online. Some have a fee associated and some are made available at no charge. They can be used to increase knowledge associated with current positions and with changes in careers. Additionally, there are courses related to finding federal employment, resume writing and improving interviewing skills.

The EPA's New Learning Management System, FedTalent, was launched in October 2018. FedTalent can be used for communicating training and career development opportunities. Training information will be shared with senior leaders who will communicate the information to their employees via regular informational sessions.

The U.S. Environmental Protection Agency's 2017-2021 Diversity and Inclusion Strategic Plan guides the agency's efforts in sustaining the EPA as a leader in creating and maintaining a high-performing workforce that embraces diversity and inclusion and empowers all employees to achieve their full potential. The multi-year Plan outlines goals, priorities and specific action items and measures developed by senior leadership and the EPA Human Resources community and concurred upon by the EPA's Diversity and Inclusion Advisory Committee, a subcommittee of the Human Resources Council.

Goal 1 of the Plan is to diversify the federal workforce through active engagement of leadership. Goal 2 of the Plan is to include and engage everyone in the workforce. Goal 3 of the Plan is to optimize inclusive diversity efforts using data-driven approaches.

The implementation of the diversity and inclusion initiatives outlined within the Strategic Plan are being tracked via an annual Roadmap and Implementation Plan. The plan was implemented for FY 2018 and the results were reported out during the September 20, 2018, DIAC meeting.

Local human resources offices are encouraged to provide advice and assistance as needed and make available to their managers the following facts sheets:

- Veterans' Preference;
- Veterans and Merit Promotion; and
- Special Appointing Authorities for Veterans

EPA Mentoring Program - The EPA's Leaders and Learners Mentoring Program is the largest formal mentoring program in the agency and is currently operating its sixth year-long mentoring cycle. Eleven of the thirteen HQ's offices participate along with four of the ten Regional Offices. The program is built on the sharing of ideas and experiences. Mentors play an essential role in helping employees to enhance their careers. Formal training, available through classroom sessions, webinars, and webcasts are available to all participants located throughout the country. This training includes orientation sessions, partnership sessions for matched mentees and mentors, sessions for supervisors of mentees, and a series of training sessions on topics of interest, including communication, teamwork, project management, and networking skills. It has provided employees with the opportunity to find their niche in the larger organization, to build strategic relationships, and to gain a broader perspective of EPA's mission, goals, and future direction. This provides a sense of belonging and ownership of the EPA's mission thereby promoting retention among all employees, including veterans.

During fiscal year 2018, the agency saw its total workforce decrease through attrition by 538 permanent employees, or approximately 3.5% of the total workforce compared to fiscal year 2017. However, the number of disabled veterans employed by the EPA and the number of 30% or more disabled veterans employed by the EPA increased by 1.5% (8) and 4.48% (16), respectively.

At the end of FY 2018, the total number of 30% or more disabled veterans in the EPA workforce represented 2.55% (373) of the agency's permanent employees, which is up approximately 0.25% from FY 2017. At the end of FY 2018, the total number of disabled veterans in the EPA, including those who are 30% or more disabled, represented 3.67% (537) of the agency's permanent employee population (14,623), which is up approximately 0.17% from FY 2017.

As the agency continues to strategically partner with other federal agencies, we are focused and dedicated to continuing to increase in the percentage of disabled veterans, especially those with a 30% or higher disability rating, in the EPA workforce each fiscal year.

The EPA has a new acting Veterans Employment Program Manager, Adam Link, who will begin to engage with the labs, regions, and others at EPA HQs to coordinate efforts to educate hiring managers about veteran employment opportunities available to them, including Operation Warfighter and Non-Paid Work Experience. By providing hiring managers with the knowledge needed to locate and hire disabled veterans, coupled with the strategies below, the EPA will be able to hire qualified applicants quicker through non-competitve process, while also employing disabled veterans. Additionally, the agency will seek to implement or continue the following recruitment initiatives:

* Increase the utilization of the fillable template flyer that advertises positions seeking 30% or more disabled veterans on Facebook (Feds Hire Vets page) and through Twitter;

* Create a template document that can easily be edited by recruitment event that provides applicants with simple instructions to easily locate EPA vacancies they may wish to apply for;

* Encourage supervisors to consider the value veterans bring to the workforce when selecting a recruitment method and/or an applicant for the vacancy;

* Encourage local Human Resources offices and managers to continually revisit internal policies and directives and work to develop new strategies to target veteran applicants;

* Update all recruitment material, including the EPA's intranet site for the Veterans Employment Program;

* Implement an annual focus group that collects valuable insight from veterans employed at the agency to identify areas for improvement that will help retain the veteran workforce;

* Implement a quarterly spotlight that highlights the accomplishments of one of the EPA's veterans;

* Work with outreach units from defense organizations to provide EPA information to veterans leaving military service;

* Work more closely with the Department of Veterans Affairs to locate or encourage veterans to continue their formal education in the sciences, so that they can more easily qualify for EPA's professional positions.

|---------------------------------------|--|
| | s (Attach supporting addendums if needed) |

The EPA is dedicated to selecting the best qualified candidate, including disabled veterans, for its internal advancement opportunities. In order to provide or improve advancement opportunities for disabled veterans, the first goal is to position our disabled veterans to be among the best qualified candidates. The agency provides internal and external training opportunities that allow all employees, including disabled veterans, to expand their skillset and help make them more marketable for advancement opportunities. Additionally, the agency will look to expand the use of its mentor programs with the intention of providing professional and technical growth to all who participate.

The second goal of the EPA is to provide or improve advancement opportunities to disabled veterans to ensure they are aware of the opportunities that exist. The EPA utilizes a local Talent Hub website where hiring managers post detail and temporary promotion opportunities. Often times, the detail and temporary promotion opportunities are emailed agencywide.

The agency is also interested in finding new ways to introduce disabled veterans to the mission and work performed by the EPA. Accordingly, the agency intends to enter into a Memorandum of Understanding with the Department of Veteran Affairs to establish an agreement between the agencies to coordinate for the purpose of providing Vocational Rehabilitation and Employment opportunities to participants of the Non-Paid Work Experience Program. These opportunities will be made available to veterans nationwide throughout the agency.

The agency is also actively seeking to collect the correct points of contacts at all military installations in an effort to share recruitment efforts and job opportunities with military spouses. The agency is also updating its intranet page to ensure it has the most current information on all veteran hiring initiatives, including the military spouse initiative.

The Veterans Employment Program Manager will also, in partnersip with the agency's HR Shared Service Centers, provide education and training to hiring managers. The VEPM will identify opportunities to meet with selecting officials to highlight the contributions of current veterans employed by the EPA and to identify skillsets that will be useful in executing the mission. The VEPM will also educate selecting officials on the hiring authorities available to provide advancement opportunities to disabled veterans.

The VEPM will provide a copy of the national DVAAP Plan for FY 2019 with all EPA Veterans Coordinators, all Human Resources Officers and Program Management Officers throughout the agency, and with senior level management at EPA Headquarters and Regional Offices.

The VEPM will also work with regional HROs and PMOs throughout the agency to appoint or designate, on a full-time or collateral basis, a Veterans Coordinator. The Veterans Coordinators will be responsible for responding to requests for information on the DVAAP Plan and related activities from the VEPM.

The VEPM will conduct regular meetings with the Veterans Coordinators to discuss strategies to advocate for the hiring, placement, and advancement of qualified disabled veterans. The meetings will also be used to collect any required data, discuss upcoming recruitment events, to share success stories, and to identify and eliminate barriers to employing, placing, and advancing qualified disabled veterans.

The U.S. Environmental Protection Agency's 2017-2021 Diversity and Inclusion Strategic Plan outlines goals, priorities and specific action items and measures developed by senior leadership and the EPA Human Resources community and concurred upon by the EPA's Diversity and Inclusion Advisory Committee, a subcommittee of the Human Resources Council.

Goal 1 of the Plan is to diversify the federal workforce through active engagement of leadership. Goal 2 of the Plan is to include and engage everyone in the workforce. Goal 3 of the Plan is to optimize inclusive diversity efforts using data-driven approaches.

The implementation of the diversity and inclusion initiatives outlined within the Strategic Plan is being tracked via an annual Roadmap and Implementation Plan. The plan was implemented during fiscal year 2018 and the results are currently being analyzed in order to be reported out agencywide.

The Veterans' Employment Program Manager will also partner with local Veterans Coordinators to ensure that local human resources offices are:

1) Providing advice and assistance as needed and making available to their hiring managers the following fact sheets:

Plan Certification

The plans shall cover a time period of not less than one year, and may cover a longer period if concurrent with the agency's Section 501(b) Plan. Each plan must specify the period of time it covers.

Agency must have a plan covering all of its operating components and field installations. The plan shall include instructions assigning specific responsibilities on affirmative actions to be taken by the agency's operating components and field installations to promote the employment and advancement of disabled veterans. OPM must be informed when headquarters offices require plans at the field or installation level.

Agency operating components and field installations must have a copy of the plan covering them, and must implement their responsibilities under the plan. OPM may require operating components and field installations to develop separate plans in accordance with program guidance and/or instructions.

Certification

The below certification indicates that the program is being implemented as required by 5 CFR Part 720, Subpart C and appropriate guidance issued by the U.S. Office of Personnel Management. Additionally, this agency has a current plan as required by the regulation.

FEORP CHECKLIST - ITEM #1

Fiscal Year 2018 FEORP Plan Accomplishments and Successful/Promising Practices

Training and Career Development

Leadership Training for EPA's Special Emphasis Program Managers

During FY 2018, the Office of Civil Rights and the Office of Human Resources collaborated to finalize a guide for SEPMs and to provide a four-hour training session available in-person and virtually on equal employment opportunity and affirmative employment, diversity and inclusion principles, and the roles and responsibilities of SEPM. During FY 2019, OCR and OHR are collaborating to provide shorter webinar training on focused topics. The EPA has ten established SEPs to assist management in promoting diversity, inclusion and equal employment opportunities at the agency. SEPMs serve as the SEP representatives for their program, regional office or lab. They are considered members of the EPA's management team because they provide advice and guidance to management on initiatives or issues regarding their respective program.

Increased Awareness of Career Development Opportunities and Resources

The EPA's New Learning Management System, FedTalent, was launched in October 2018. FedTalent can be used for communicating training and career development opportunities. Training information will be shared with senior leaders who will communicate the information to their employees via regular informational sessions.

EPA Mentoring Program

The EPA's Leaders and Learners Mentoring Program is the largest formal mentoring program in the agency and is currently operating its sixth year-long mentoring cycle. Eleven of the thirteen HQ's offices participate along with 4 of the 10 Regional Offices. The program is built on the sharing of ideas and experiences. Mentors play an essential role in helping employees to enhance their careers. Formal training, available through classroom sessions, webinars, and webcasts, are available to all participants located throughout the country. This training includes orientation sessions, partnership sessions for matched mentees and mentors, sessions for supervisors of mentees, and a series of training sessions on topics of interest, including communication, teamwork, project management, and networking skills. It has provided employees with the opportunity to find their niche in the larger organization, to build strategic relationships, and to gain a broader perspective of EPA's mission, goals, and future direction. This program provides a sense of belonging and ownership of the EPA's mission thereby promoting retention.

OnBoarding

The EPA Office of Civil Rights, Office of Human Resources, and Office of Public Affairs collaborated to create a series of taped videos on equal employment opportunity, diversity and inclusion, ethics, and record keeping for use by offices agencywide to ensure consistent messaging during onboarding on these statutory and regulatory topics and requirements.

Initiatives in Support of Persons with Disabilities

<u>Campaign to Encourage Self-Identification of Disabilities</u> During fiscal year 2018, the EPA's Office of Human Resources implemented an awareness campaign to encourage employees to voluntarily self-identify or update their information using the revised Standard Form 256, Self-Identification of Disability, through Employee Express. Information was disseminated via multiple agencywide communication platforms; including posting a reminder on employees' leave and earning statements, posting flyers and banners on the agency's intranet site, sending a reminder to first line supervisors, and posting notices in the agency's newsletter. A similar campaign will be implemented during FY 2019.

Strengthened the Sign Language Interpreting and Captioning Program

The agency created and implemented processes and procedures to provide enhanced accountability for EPA Headquarters' sign language interpreter and communications access realtime translation/captioning services to deaf and hard of hearing employees, job applicants, and the general public who participate in EPA-facilitated informational and educational events. Specifically, the agency strengthened procedures to enable requestors to identify personal preferences when seeking interpreter services and oversaw the implementation of consolidated contracting services to support better fiscal management in the provision of these services.

Recruitment and Outreach

Historically Black Colleges and Universities Plan

During FY 2018, the agency created and implemented a Plan on Executive Agency Actions to Strengthen the Capacity of Historically Black Colleges and Universities to Compete for Federal and Private Sector Opportunities in accordance with Executive Order 13779. Under this Plan, one of the agency's overarching goals is to expand outreach opportunities to HBCUs to increase the numbers of diverse applicants for EPA entry level positions. During FY 2018, the EPA expanded memoranda of understanding with HBCUs. Specifically, the EPA created MOUs with Bowie State and initiated MOUs with Grambling State. The EPA also re-asserted its commitment to 29 MOUs with HBCUs. These MOUs supported career fairs and workshops, as well as enabled the agency to establish and build relationships with students and faculty at HBCUs. The EPA also detailed a senior executive to an HBCU via Intergovernmental Personnel Act agreement to support the exchange of information, provide technical assistance, and increase the pool of diverse qualified applicants for the EPA's mission critical occupations in science and engineering.

Use of the Monster/EZ Hire Diversity Listing for Recruiting

During FY 2018, the agency updated its master listing of professional organizations and institutions serving underrepresented professionals and students, and veterans. This listing is used by the Human Resources Shared Service Centers to communicate information about vacancies at the agency. This listing is particularly useful in supporting the agency's goal of creating a diverse qualified applicant pool of readily available applicants for our mission critical occupations and executive positions.

FEORP CHECKLIST - ITEM # 2

Identify at least one strategy for each goal area from your agency's Inclusive Diversity Strategic Plan that your agency will work on in Fiscal Year 2019. Include goal area, agency objective, strategic activity, and benchmarks.

The EPA uses an annual "Roadmap and Action Plan" as an accountability tool to track the implementation of goals and priorities identified in the Agency's Diversity and Inclusion Strategic Plan (2017-2021). Annually, the Plan is reviewed and approved at the beginning of each fiscal year by the Agency's Diversity and Inclusion Advisory Committee. The annual Plan describes the specific activities, strategic measures, outcomes, program leads, and target completion dates for the agency's goals and priorities. To facilitate a more robust assessment of the implementation process, each action includes strategic measures and outcomes with quantitative and qualitative performance indicators. The EPA's Office of Human Resources and Office of Civil Rights jointly coordinate and track the execution of annual Plans and provide periodic status updates on progress to the DIAC and to the agency's senior leaders.

Goal 1: Diversify the Federal Workforce Through Active Engagement of Leadership

Agency Objective: The EPA will maintain and further establish strategic partnerships with various colleges, universities, other academic institutions and professional organizations. The goal of the partnerships is to introduce the agency to a diverse population and to educate on federal opportunities.

FY 2019 Strategic Activities:

- a) Maintain memoranda of understanding with existing partners.
- b) Establish new partnerships with universities and other academic institutions.

Benchmarks: Currently, the EPA has 27 MOUs with 52 separate colleges, universities, other academic institutions and professional organizations, many of which are minority serving institutions, and institutions with a focus on serving persons with disabilities.

Goal 2: Include and Engage Everyone in the Workplace

Agency Objective: The EPA will educate and train senior executives, managers, supervisors and HR professionals on the importance of promoting workforce diversity and inclusion, including legal requirements pertinent to recruiting, interviewing and hiring decisions.

FY 2019 Strategic Activities:

- a) Implement an agency strategy for reducing unconscious bias in the EPA's Human Resource selection process. For the purposes of this strategy, the selection process includes any HR process or decision made in regard to recruitment, hiring, promotion, awards, development, advancement, and retention.
- b) Communicate to managers about legal requirements pertaining to recruiting, interviewing and hiring decisions.
- FY 2018 data

Benchmarks: To effectively identify appropriate mitigation strategies for the EPA, the agency collected benchmark data on existing mitigation strategies being implemented within the EPA and on mitigation strategies being conducted by other Federal agencies. The agency also reviewed current literature on best practices regarding mitigating unconscious bias in the hiring process.

Currently, managers receive information about the legal requirements pertaining to recruiting, interviewing and hiring decisions, when they begin the hiring process; however, consistent training is not currently provided to hiring managers and supervisors.

Goal 3: Optimize Inclusive Diversity Efforts Using Data-Driven Approaches

Agency Objective: The EPA will retain resumes for Schedule A applicants and disabled veterans in an automated and searchable database that will allow hiring managers to have access to qualified applicants in a timely and efficient manner.

FY 2019 Strategic Activities:

- a) Create vacancy announcement to attract Schedule A applicants to increase the hiring of persons with disabilities.
- b) Create searchable database of resumes of persons eligible for non-competitive selection using the Schedule A hiring authority.

Benchmarks: The current process of collection, organization, search and selection of Schedule A and disabled veterans applicant resumes submitted to the EPA for consideration of non-competitive hiring is a manual/paper-based method resulting in an inefficient and antiquated system that makes the agency vulnerable.

The EPA's hiring of persons with disabilities and persons with targeted disabilities as of fiscal year 2018, is below the Equal Employment Opportunity Commission's targets.

| ٠ | EEOC PWD Target: 12% | EPA PWD: 7.53%* (7.67% in 2016) |

FEORP CHECK LIST - ITEM # 3

Strategic activities related to Hispanic employment.

During fiscal year 2018, the Office of Civil Rights conducted an analysis of workforce data identifying triggers related to lower than expected participation rates for Hispanics. This analysis, which was based on data from fiscal years 2016 and 2017 is currently being updated to include fiscal year 2018. This updated analysis will be used as the basis for an MD-715 Planned Activity to identify barriers to employment and upward mobility of Hispanics at the EPA at the GS 12 through SES levels. Once the barrier analysis is completed, the agency will develop plans to address any identified barriers to employment and upward mobility; outreach and recruitment; career development, advancement and retention; and training and education initiatives to increase Hispanic employment and upward mobility.

Benchmarking and analysis

The Agency will conduct benchmarking on the Equal Employment Opportunity and Diversity and Inclusion programs of Agency's with high employee viewpoint survey scores and high participation of Hispanic employment to identify and leverage best practices for use by the EPA.

Outreach and recruitment

The Agency desires to have a robust pool of qualified Hispanic professionals aware of the Agency's mission, internships and job openings at a variety of grade levels. The Agency is building formal relationships with professional Hispanic organizations and with Hispanic Serving Institutions to meet this goal. During FY 2019, the Agency will establish Memorandum of Understanding with the Society for Hispanic Professional Engineers to assist with providing outreach to Hispanic professionals regarding career opportunities in the agency. This MOU is designed to increase the pool of diverse qualified applicants for the EPA's mission critical occupations in science and engineering.

Career Development, advancement and retention

The Agency has identified short-term and long-term goals that will allow for the capture of career development applicant flow data. The short-term plan is to identify (or catalogue) career development opportunities at the Agency. These opportunities include programs that better prepare a participant for promotion into various levels of management. The Agency's target completion date for this identification is September 30, 2019. After the career development opportunities have been determined, the Agency will develop a plan to capture applicant flow data (manually) on a quarterly basis and use that information for Management Directive-715 and FEORP reporting. The Agency's Deputy Civil Rights Officials network will be leveraged to ensure agency-wide compliance with this process.

Training and Education

During FY 2019 (October), the Agency launched its first Agency-wide Learning Management System, currently known as FedTalent. FedTalent interfaces with the Agency's HR system of record (FPPS), thereby allowing the Agency to more easily track selectees in its training and coaching programs. However, there are no features of the LMS that will allow for tracking of applicants. Given this inherent constraint in the LMS, the Agency will develop other strategies for capturing applicant data.

FEORP CHECKLIST - ITEM #4

Identify strategic activities the Agency is implementing to meet the goals set forth in Executive Order 13458, *Increasing Federal Employment of Individuals with Disabilities*.

Self-identification, benchmarking, analysis and accountability:

Annual Campaign to Encourage Employee's to Self-Identify their Disability:

During fiscal year 2018, the EPA's Office of Human Resources implemented a more extensive awareness campaign to encourage employees to voluntarily self-identify or update their information using the revised Standard Form 256, *Self-Identification of Disability*, through Employee Express. Information was disseminated via multiple agency-wide communication platforms; including, posting a reminder on employees' leave and earning statements, posting flyers and banners on the Agency's intranet site, sending a reminder to first line supervisors, and posting notices in the Agency's newsletter. A similar campaign will be implemented during FY 2019.

Outreach, recruitment:

Implementation of Memoranda of Understanding between the EPA and institutions focused on serving deaf and hard of hearing students.

During FY 2019, a new MOU between the EPA and Gallaudet University was signed and actions were taken to strengthen an existing MOU (signed in FY 2017) between the EPA and the Rochester Institute of Technology/National Technical Institute for the Deaf. The EPA also began forming a partnership with the Texas School for the Deaf. An MOU with TSD will be signed in FY 2019. These MOUs contribute to the universities' abilities to provide a high-quality education by giving their students the chance to participate in career opportunities in the agency, through paid and unpaid internships, mentorship programs and mock interviews. These MOUs also support the exchange of information between faculty and agency professionals, provide technical assistance, and increase the pool of diverse qualified applicants for the EPA's mission critical occupations in science and engineering.

Roundtable Meeting with the Acting EPA Administrator

During FY 2019, the EPA will host a roundtable meeting between the Acting EPA Administrator and institutions with which the Agency has an MOU that are focused on serving D/HH students. The purpose of the roundtable will be to exchange information and identify additional ways to increase the capacity and effectiveness of existing MOUs with these institutions.

Phase 1: Implementation of Initiative to Increase the Hiring of Persons with Disabilities: During FY 2019, the Agency implemented a pilot designed to increase the hiring of persons with disabilities. This effort directly supports the Agency's MD-715 priority planned activity to increase the use of the Schedule A hiring authority specific to persons with disabilities. The pilot began in October and will run for six months through April 2019. During the pilot, announcements will be placed on the USAJobs site designed to attract persons with disabilities to positions open in the agency. Persons interested in these positions will be directed to the Careers page on the EPA internet site where they can view agency vacancies and Schedule A hiring authority information. During the pilot, hiring managers will receive training on use of the Schedule A hiring authority as well as training on mitigating unconscious bias in the hiring of persons with disabilities. At the end of the pilot, the Agency will analyze the pilot's effectiveness (comparison of pre-pilot vs. post-pilot Schedule A hiring statistics) and decide whether to permanently continue this strategy or seek other ways to improve the hiring of persons with disabilities.

Hiring activities:

<u>Phase 2: Implementation of Initiative to Increase the Hiring of Persons with Disabilities:</u> Currently, persons with disabilities seeking to be hired non-competitively by the EPA using the Schedule A hiring authority submit their resumes to EPA recruiters, hiring managers, and Selective Placement Program Coordinators via the U.S. mail, electronic mail messages, or in person at job fairs. The resumes are managed locally and shared with the Human Resources Shared Services Centers, program and regional offices, and recruitment coordinators for consideration. The EPA is exploring the creation and implementation of a searchable resume database/repository (linked to Monster/EZ Hire or a comparable platform) to streamline the current approach to ensure that these resumes are properly inventoried, circulated, and managed. This repository will allow hiring managers and recruiters to upload paper resumes received during career fairs, college visits, and via other venues, and search those resumes agency-wide for non-competitive consideration.

Reasonable Accommodations:

Creating processes and procedures to strengthen and improve the Sign Language Interpreting and Captioning Program.

During FY 2018, the Agency created and implemented processes and procedures to provide enhanced accountability for EPA Headquarters' sign language interpreter and Communications Access Realtime Translation/captioning services. The working group conducted benchmarking of the Sign Language Interpreting Programs of five Federal agencies and their subcomponents and administered a survey of EPA D/HH employees regarding their experience with the program. The updated procedures for the program were implemented effective January 2018. The procedures: 1) improved the ability of users to identify their support requirements by helping users identify key behaviors, skills and knowledge that an interpreter must have to effectively support communication prior to assignment; 2) limited the number of interpreters users could place on their "Do Not Send" lists; and 3) enabled users to formally provide feedback via a form regarding their experience using the contract and with their assigned interpreters.

Training and Education:

Provide reasonable accommodation training to managers and supervisors.

During FY 2019, the Office of Civil Rights will conduct training for managers/supervisors on the reasonable accommodation process. The training covers the process for determining eligibility and providing opportunities for an EPA employee with a disability to perform the essential duties of their job and have equal access to benefits and privileges of employment. The training also covers information from the Equal Employment Opportunity Commission final rule on Affirmative Action for People with Disabilities in Federal Employment.

Implementation of the Strategy to Mitigate Unconscious Bias in Hiring Processes During FY 2018, the Agency created a Strategy for Mitigating Unconscious Bias in EPA's human resources processes; including recruiting, hiring, promotions, awards, and career development. During FY 2019, the Agency will pilot the strategy and create and implement a resource repository on SharePoint that will enable all employees to conduct a self-assessment if bias in their office and use mitigation tools (data, training, policy changes, and outreach/advocacy) to mitigate identified issues.

Introduction

Background

As one of the nation's largest employers, the federal government has an obligation to lead by example. On August 18, 2011, President Obama issued Executive Order 13583 – *Establishing a Coordinated Government-wide Initiative to Promote Diversity and Inclusion in the Federal Workforce.* The EO directs executive departments and agencies to develop and implement a more comprehensive, integrated and strategic focus on diversity and inclusion as a key component of their human resources strategies. Agency approaches are to include a continuing effort to identify and adopt best practices, implemented in an integrated manner, to promote diversity and remove barriers to equal employment opportunity, consistent with merit system principles and applicable law. Further, the head of each executive department and agency is required to develop and submit to the U.S. Office of Personnel Management and Office of Management and Budget an agency-specific Diversity and Inclusion Strategic Plan.

Purpose and Scope

This Plan serves as a road map to guide our efforts in sustaining the EPA as a leader in creating and maintaining a high-performing workforce that embraces diversity and inclusion and empowers all employees to achieve their full potential. The multi-year Plan builds on the EPA's 2012 - 2016 Diversity and Inclusion Strategic Plan and reflects guidance provided by the OPM.

The EPA's Plan incorporates the three goals and eight priorities delineated in OPM's 2016 Government-wide Inclusive Diversity Strategic Plan, and sets forth the approaches and actions for advancing diversity and inclusion at the EPA. The Plan addresses human capital functions including the development and implementation of recruitment, professional development, and engagement strategies critical to maintaining a more diverse workforce. Furthermore, it focuses on factors important to creating and sustaining an inclusive culture that encourages and enables individuals to participate to their full potential. The Plan also serves to communicate that diversity and inclusion are agency values and reflect a key management strategy.

The Plan will be reviewed annually to assess our progress and incorporate revisions as necessary. Progress in achieving desired organizational outcomes will be evaluated through the monitoring of identified systems of measurement and metrics. On a five-year cycle, we will initiate a full update of the *Diversity and Inclusion Strategic Plan* that will include, as applicable, revising and/or establishing new goals, priorities, strategies or actions.

Definitions

In order to ensure that all agencies are operating with the same frame of reference, the OPM provided definitions for the following terms:

Workforce Diversity – is defined as a collection of individual attributes that together help agencies pursue organizational objectives efficiently and effectively.

Inclusion – is defined as a set of behaviors (culture) that encourages employees to feel valued for their unique qualities and experience a sense of belonging.

Inclusive Diversity – is defined as a set of behaviors that promote collaboration amongst a diverse group.

Mission

The mission of the EPA is to protect public health and the environment. One of the EPA's crosscutting strategies is *Embracing EPA as a High Performing Organization*. To support this priority, the EPA must recruit, develop and retain a diverse, high-performing workforce and maintain a work environment where the uniqueness of individuals is respected and leveraged so that all employees are able to participate and contribute to the mission.

Vision

It is the EPA's vision to serve as a model federal agency by leveraging diversity and fostering inclusion to deliver the best public service. We strive to demonstrate diversity and inclusion in all aspects of the agency's management practices.

Strategic Goals and Measures

The EPA's diversity and inclusion efforts are guided by the following goals that emphasize workforce diversity, workforce inclusiveness and accountability:

1. Diversify the Federal Workforce through Active Engagement of Leadership The EPA shall foster a diverse, high-performing workforce drawn from all segments of American society, in conformance with merit principles.

Include and Engage Everyone in the Workplace The EPA shall foster a culture that encourage employees to feel uniquely valued and experience a sense of belonging.

 Optimize Inclusive Diversity Efforts Using Data-Driven Approaches The EPA shall continue to improve inclusive diversity communication efforts and comply in a timely fashion with Federal Equal Opportunity Recruitment Program requirements.

Goals, Actions and Measures

Goal 1: Diversify the Federal Workforce through Active Engagement of Leadership

Agency leaders shall continue their efforts to attract, recruit, retain, and cultivate diverse leaders by frequently communicating, accounting for, and modeling inclusive diversity behaviors that attract and reflect the broad diversity of American society.

Priority 1.1: Leaders shall emphasize the importance of their inclusive diversity efforts by utilizing a wide range of communication strategies and tools that demonstrate their support for these initiatives. Specifically, leaders shall provide resources and support to identify and overcome potential barriers that inhibit inclusive diversity efforts.

Actions:

- 1. The EPA Administrator will issue an annual message reaffirming the agency leadership's commitment to diversity, inclusion and inclusive diversity efforts.
- 2. EPA leaders will ensure the development and implementation of a comprehensive communication strategy to reinforce the agency's diversity and inclusion principles and provide information concerning inclusive diversity efforts throughout the agency.
 - Ensure that all EPA managers and employees have access to the agency's *Diversity and Inclusion Strategic Plan* as well as diversity and inclusion resources and training materials.
 - Expand efforts to educate and share information with the workforce concerning EEO, diversity and inclusion issues, including details regarding specific strategies and initiatives that the EPA is pursuing.
 - Utilize all available communication vehicles, including social media platforms and the EPA.gov website, to provide potential applicants with information concerning diversity and inclusion at the EPA.
 - Administer a robust orientation process for new employees and new members of the Senior Executive Service to introduce them to the agency's mission, values and culture.
- 3. EPA leaders and senior managers will sponsor, participate and encourage employees to participate in town hall meetings, brown bag sessions and events organized to promote inclusive diversity.
- 4. The EPA's Office of Civil Rights and Office of Administration and Resources Management will conduct customer service visits with program office and region senior management and encourage them to develop diversity and inclusion action plans.
- Share best practices with program office and regional senior management in developing diversity and inclusion action plans. For example, the EPA will include Special Emphasis

| | Program Managers in the workgroup development of diversity and inclusion action plans. |
|--------|--|
| Measu | ires: |
| * | The EPA Administrator issues an annual inclusive diversity policy statement to the agency's workforce. |
| * | The EPA will develop a strategic communication plan and disseminate information concerning the EPA's inclusive diversity efforts. |
| * | The EPA's quarterly Diversity Dashboard report is made accessible to all employees along with guidance on how to interpret the data in the report. |
| * | The EPA's Office of Human Resources website provides current information and resources concerning agency diversity and inclusion initiatives. |
| * | Diversity and inclusion events are scheduled, promoted and held throughout the year. |
| Priori | ty 1.2: Leaders shall review the wide range of policies, programs, systems, and techniques currently in use and determine specific initiatives that should be enhanced and improved. The evaluation should include diversity, inclusion, and engagement elements in performance plans; employee resource groups; mentoring and coaching; and inclusive diversity training. |
| Action | 15: |
| 1. | The EPA will re-invigorate the agency's Special Emphasis Program to include encouraging employees to volunteer to fill SEPM positions. |
| 2. | The EPA's senior leaders will conduct regular informational sessions with employees to share information on training and career development opportunities and resources. |
| 3. | The EPA's senior leaders will encourage and support SEPM and Employee Resources Group initiatives to facilitate training on diversity and inclusion topics. |
| 4. | The EPA's senior leaders will use the results of the annual Employee Viewpoint Surveys and other workforce feedback to take action responsive to employee concerns. |
| 5. | The EPA's senior leaders will ensure that all SES members, managers and supervisors continue to have a performance plan measure addressing diversity and inclusion. |
| 6. | The EPA's OCR and OARM will develop a mechanism to voluntarily collect demographic information on participants in the agency's mentoring and coaching programs and use the information to address any potential barriers to participation caused by an agency policy, practice or procedure. |
| | P a g e 4 |
| | |

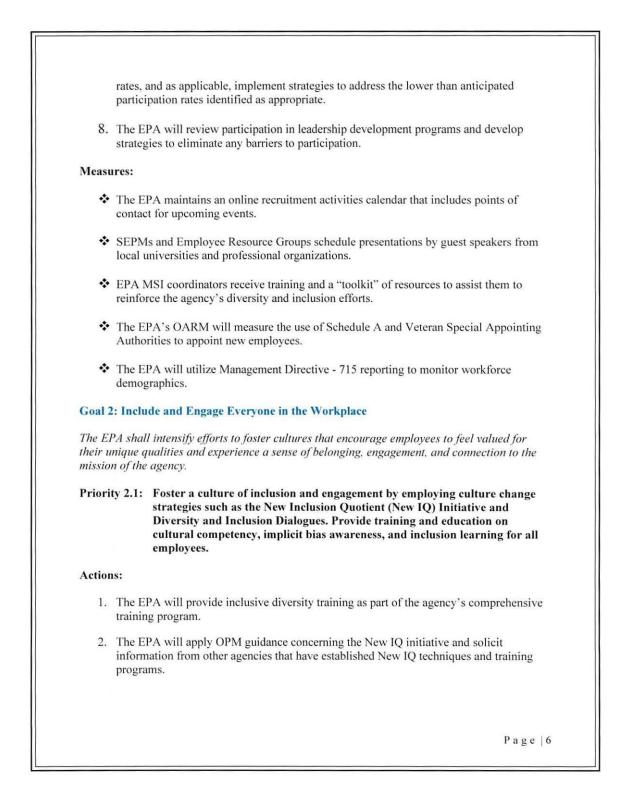

Measures:

- SEPM vacancies are filled timely and all SEPMs are provided appropriate training and support.
- The EPA develops an inclusive diversity SharePoint website, accessible to all employees, to host diversity and inclusion resources.
- Plans are in place to increase the percentage of positive responses to the EVS question concerning agency policies and programs to promote diversity in the workplace.

Priority 1.3: Leaders shall develop and implement broad outreach strategies to attract leaders from diverse sources to the organization, consistent with merit system principles, through strategic partnerships with affinity organizations, diverse postsecondary educational institutions, professional associations, and public, private and non-profit sectors.

Actions:

- The EPA will coordinate outreach and recruitment strategies to maximize its broad-based efforts, including its ability to recruit from a diverse, broad spectrum of potential applicants, including a variety of geographic regions, academic sources and professional disciplines.
- The EPA's recruitment calendar will reflect the various events recruiters and other personnel will participate in to share information concerning agency career opportunities.
- 3. The EPA will maintain and further establish strategic partnerships with various colleges, universities, other academic institutions and professional organizations.
- 4. The EPA's Minority Servicing Institutions program will ensure collaborative relationships with Historically Black Colleges and Universities, Hispanic-Serving Institutions, Tribal Colleges and Universities, and American Indian and Alaska Native-Serving Institutions.
- 5. The EPA's human resources personnel and hiring managers will continue to collaborate concerning outreach, recruiting and hiring initiatives.
- The EPA's OARM will ensure that hiring managers receive training on the use of appropriate hiring authorities and flexibilities.
- 7. The EPA's OARM and OCR will monitor national applicant flow and workforce demographic data against the National and Relevant Civilian Labor Force participation

| 3. | The EPA's leaders will sponsor, participate in and encourage employees to attend cultural awareness and heritage observances events, and support, as appropriate, employee efforts to invite guest speakers and host activities. |
|--------|--|
| 4. | Each EPA program office and region will identify a diversity and inclusion lead who will serve as a point of contact for information on inclusive diversity initiatives. |
| 5. | The EPA's leaders will use annual EVS results and other workforce feedback to implement actions to enhance employee engagement and inclusion. |
| Measu | ires: |
| * | The EPA develops and deploys a New IQ training program. |
| * | The EPA provides training on cultural competency, implicit and/or unconscious bias awareness, diversity and inclusion for all employees. |
| * | The EPA evaluates organizations with an increase in the percentage of positive responses to the EVS questions comprising the Employee Engagement Index and New IQ Index, and changes in the overall index scores to identify best practices and lessons learned. |
| Priori | ty 2.2: Assess, redesign, and reengineer organizational structures and business processes to promote teamwork, collaboration, cross-functional operations, and transparency; and to deconstruct organizational silos that lead to exclusive cultures and to flawed decision-making. |
| Action | 15: |
| 1. | The EPA will incorporate inclusive diversity principles across all business functions and promote efforts to enhance leadership and team building skills important to leading and/or participating on diverse teams. |
| 2. | The EPA will educate and train senior executives, managers, supervisors and HR professionals concerning the importance of promoting workforce diversity and inclusion, including legal requirements pertinent to recruitment, interviewing and hiring decisions. |
| 3. | The EPA's leaders and managers will use the EPA Talent Hub to promote and solicit competitive service employees to apply for temporary full-time detail assignments, part-time projects/special assignments, temporary promotions, SES rotations and other developmental assignments. |
| 4. | EPA's leaders will implement the agency's Position Management Order (Order 3145) that requires managers to align the position management program with human capital planning activities and reporting, performance evaluation and the budget process. |
| 5. | The EPA's leaders will use annual EVS results and other workforce feedback to implement actions responsive to organizational practices and/or other areas of concern. |
| | P a g e 7 |

Measures:

- Measure the use and traffic to the Talent Hub website.
- Survey employee satisfaction of employees who have participated in an assignment posted on the EPA Talent Hub.
- The EPA evaluates organizations with an increase in the percentage of positive responses to the EVS questions concerning management efforts to promote communication among different work units, support collaboration across work units, provide employees opportunities to demonstrate their leadership skills and support employee development to identify best practices and lessons learned.

Goal 3: Optimize Inclusive Diversity Efforts Using Data-Driven Approaches

The EPA shall intensify efforts to create and foster a diverse, high-performing workforce, utilizing data-driven approaches and optimizing policies, processes, and programs to drive inclusive diversity efforts and accomplish the agency's mission.

Priority 3.1: Create a diverse, high-performing workforce, utilizing data-driven approaches to recruitment, including analyzing applicant flow data; educating hiring managers; designing fair and effective recruitment and examining strategies for competitive examining and examining for the career Senior Executive Service that cast the broadest net possible and apply merit principles; utilizing applicable special hiring authorities (e.g., Schedule A authority for individuals with certain disabilities, veterans hiring authorities, etc.) as supplements to competitive hiring processes; partnering with diverse organizations and institutions to help recruitment draw from all segments of society, and generate cognitive diversity; and conducting a review of potential implicit biases within the organization.

Actions:

- The EPA will review applicant flow data for SES and selected non-SES positions to identify potential barriers to equal employment opportunity, and as applicable, refine outreach and recruitment strategies to encourage submission of applications from all qualified segments of society, consistent with merit system principles.
- 2. The EPA will complete implementation of its multi-phased pilot to collect voluntary selfdisclosed sexual orientation and gender identity data from employees and job applicants. These data will be used to help design effective outreach and recruitment strategies that will encourage submission of applications from all qualified segments of society, consistent with merit system principles.
- 3. The EPA's hiring managers (including recruiters) will be provided with current information on all relevant appointing authorities and hiring flexibilities.

| 4. | The EPA will retain resumes for Schedule A applicants and disabled veterans in an automated and searchable database that will allow hiring managers to have access to qualified applicants in a timely and efficient manner. |
|-------------------|---|
| 5. | The EPA will disseminate information to hiring managers regarding active internship programs and opportunities. |
| 6. | The EPA will collect and analyze information on internal applicants to SES vacancies consistent with the reporting requirements of MD-715. |
| Measu | ures: |
| ** | • The EPA develops and implements an agency-wide coordinated plan to participate in career fairs and other outreach events. |
| * | Measure the number and percentage of new employees hired under special hiring authorities. |
| Priori | ity 3.2: Foster a diverse, high-performing workforce by utilizing data-driven approaches to promotion opportunities and career development, including analyzing applicant flow data; developing career enhancement opportunities; utilizing appropriate collaborative practices and social media technologies; and collaborating with SEPMs, affinity groups and employee resource groups. |
| Action | ns: |
| 1. | The EPA will utilize the MD-715 reports including analysis of SOGI data, and applicant flow data and establish focus groups to identify actions that can be taken to address any potential barriers to career development and advancement identified by the agency. |
| | |
| 2. | The EPA's leaders will communicate the importance of employees upgrading their skills, improving their visibility and demonstrating leadership abilities as keys to advancing their career. |

Implementation Plan

Leadership Commitment: The EPA's leadership will play a key role in defining, championing and communicating the agency's *Diversity and Inclusion Strategic Plan*, and in annually monitoring the implementation of actions required to achieve the goals of the Plan.

- The Chief Human Capital Officer is responsible for implementing the goals of this Plan in collaboration with program offices and regions.
- The EPA's Executive Management Council, which is comprised of senior career leaders, will provide critical guidance on specific action plans and measures that will implement the goals and objectives of this Plan.
- The EPA's Human Resources Council and DIAC, comprised of representatives from a cross-section of the agency, with representatives from program and regional offices as well as SEPMs and the unions, will act as a strong platform of engagement for developing and recommending actions and initiatives that support diversity and inclusion as a means of conducting business, and for evaluating their effectiveness by identifying appropriate metrics to measure outcomes.
- The EPA's senior leaders and managers will ensure that inclusive diversity practices are integrated into communications, recruitment and retention, training and professional development and overall management practices.
- This Plan, consisting of goals, required activities, and best practices will be communicated throughout the agency by senior leaders.
- All EPA employees will improve their understanding of how a diverse and inclusive work environment can strengthen and enrich their ability to achieve the agency's mission.

Accountability: Measurement and accountability are essential components of this Plan, and will provide a way to track progress, identify achievements, and inform strategic decisions related to diversity and inclusion.

- The EPA will ensure senior leaders are responsible for implementing the goals and priorities of this Plan by linking them to their individual performance plans.
- The EPA will use the OPM Diversity and Inclusion Dashboard as the reporting mechanism to submit progress reports, as required, to OPM.
- To achieve the long-term goals and associated actions outlined in this Plan, the EPA will also track activities, outcomes and accomplishments through internal performance measures. These measures will take advantage of established information systems, surveys and reporting mechanisms, including the EPA's

Diversity Dashboard, OPM's Diversity Dashboard and the EVS, MD-715 and other measurement indices as determined over time.

 Within the five-year period covered by this Plan, the EPA's DIAC will review the Plan contents with appropriate parties to evaluate the effectiveness of its strategies and supporting actions.

Conclusion

The EPA's 2017-2021 Inclusive Diversity Strategic Plan provides a framework of goals, required activities, and best practices that support the agency remaining an "employer of choice." The achievement of the goals and priorities in this Plan requires the strong support and collaboration of the EPA's leaders, managers, supervisors and staffs. The EPA's employees should be informed of the agency's ongoing efforts to create an inclusive and diverse workplace, and leadership's recognition that each employee plays a critical role in the success of the agency's mission and vision.

CONDUCT AND DISCIPLINE

1. <u>PURPOSE</u>. This Transmittal provides an Order updating policies and procedures covering employee misconduct and corrective discipline actions in EPA.

2. EXPLANATION. This Order is replacing the Conduct and Discipline Manual, dated October 18, 1976. A new Manual is not needed because it would duplicate material in two recent issuances by the Office of General Counsel which covers general conduct and financial disclosures. The two issuances are entitled U.S. EPA Guidance on Ethics, and the 40 CFR Part 3 (EPA Responsibilities and Conduct).

3. SUPERSESSION. EPA Conduct and Discipline Manual, dated October 18, 1976 and Transmittals 1 and 2.

3. <u>GENERAL</u>. The Environmental Protection Agency requires all its employees to adhere to the Agency Regulations on Employee Responsibilities and Conduct (40 CFR, Part 3) and to maintain levels of behavior and efficiency which conform to the highest ethical standards and promote the best interests of EPA and the Federal Service. Likewise, all managers and supervisors are responsible for maintaining a climate of constructive discipline within their organizations by good example and practice, clear instruction, fair and equal treatment of all employees, and firm and decisive leadership.

4. POLICY. It is EPA policy that primary emphasis be placed on preventing situations requiring disciplinary actions through effective emp. /ee-management relations and that when work performance and/or conduct are not maintained at acceptable levels, constructive corrective action be taken by responsible supervisors on a timely basis.

5. DETERMINING CORRECTIVE ACTION TO BE TAKEN. All EPA supervisors and management officials are responsible for taking appropriate corrective actions for which they have been delegated authority and for recommending to higher level officials disciplinary action considered appropriate in other cases. Any supervisor or management official with supervisory duties may take informal corrective actions (paragraph 6 below) and issue official written reprimands (subparagraph 7a below) unless these authorities have been specifically withheld. The following principles will be observed in the exercise of both formal and informal corrective actions:

3120.1 9/20/85

a. The action taken must be consistent with the precept of like penalties for like offenses, with mitigating or aggravating circumstances taken into consideration. The action taken should be fair and equitable; and if a penalty is warranted, it shoul be no more-severe than sound judgment indicates is required to correct the situation and maintain discipline. The Appendix to this Order should serve as a guide to appropriate actions for most offenses.

b. No action may be taken against an employee on any basis prohibited by 5 U.S.C. 2302, "Prohibited Personnel Practices".

6. INFORMAL CORRECTIVE ACTIONS. When a supervisor decides that corrective action is necessary, he or she should first consider informal measures which are non-punitive in nature but which will adequately instruct offending employees and remedy problem situations. Supervisors are urged to review the facts of individual cases and consider one or more of the following informal measures before form 1 corrective actions, which are recorded in an employee's official personnel folder, are used.

a. <u>Closer Supervision</u>. The correction of employee misconduct may require nothing more than closer supervision. The supervisor should inform the employee of the reason for the closer supervision and encourage the employee to cooperate to remedy the problem.

b. Oral Admonishment. The most common corrective action is usually the face-to-face session between employee and supervisor. Such discussions should be conducted in private to avoid undue embarrassment to the employee. The tone should be informal and relaxed. The supervisor should advise the employee of the specific infraction or breach of conduct and encourage the employee to explain his or her side of the matter or offer any comment he or she wishes to make. After listening to the employee, the supervisor must decide if he γ she should continue. If still warranted, the supervisor should administer the admonishment and outline what steps he or she feels are necessary to preclude its recurrence.

c. Written Warnings. A written warning should describe exactly what improper actions the employee is engaging in, outline positive corrective steps, and state what penalty might result if the actions continue. A copy of the written warning is not placed in the employee's official personnel folder, but a copy should be retained in the supervisor's personal files. Written warnings are often effective in influencing those employees who require a tangible expression of a supervisor's views. This kind of corrective action lacks the give and take of the oral interview and should usually be employed only if the supervisor has already tried an oral warning or feels that it would be inappropriate.

-2-

7. FORMAL DISCIPLINARY ACTIONS. A formal disciplinary action may be an official written reprimand, a suspension, a change to a lower grade, or removal from the civil service. Records of formal disciplinary actions become a part of the employee's official personnel folder. Supervisors should initiate such actions only after coordinating any proposed action with their servicing Personnel Offices. Detailed information concerning formal disciplinary actions is contained in the paragraphs below.

a. Official Written Reprimand. An official written reprimand is a letter or memorandum issued to an employee by an authorized supervisor or management official to correct an employee's conduct, attitude, work habits, or other factors which have a relationship to his or her employment, and to maintain the efficiency, discipline, and morale of the work force. It is filed in the employee's official personnel folder for a period of up to two years. This type of disciplinary action may be used for a situation or offense which is (1) serious and warrants more than an informal measure, or (2) in the case of repeated infractions of a minor nature. (It should not be confused with the written warning discussed in subparagraph 6c above.) B fore issuing an official reprimand, the supervisor must full/ discuss the incident with the employee to permit the employee to present his or her side of the situation. If after the employee presents his or her views, the supervisor considers a reprimand to be warranted, the supervisor should prepare the written reprimand in accordance with subparagraph 7a(1) below. (See sample in Figure 1.)

(1) <u>Contents</u>. The following information shall be incorporated in the body of an official reprimand:

(a) A description of the facts in sufficient detail to assure that the employee will fully understand the violation, infraction, misconduct, or other action or omission for which the or she is being reprimanded. The supervisor should include in the reprimand specifics as to times, places, dates, and events, and refer to the discussion mentioned in subparagraph 7a above.

(b) A statement that the document is an official reprimand and that it will be made a matter of record and filed in the employee's official personnel folder for a period not to exceed two years.

(c) A restatement of any former incidents if the reprimand is a follow-up of previous offenses and the action is a continuation of constructive discipline. If the employee failed to take any remedial action previously stipulated, that fact should also be included.

(d) A warning that any future similar occurrence or other misconduct may result in more severe disciplinary measures.

-3-

(e) Assistance which is available to the employee for remedial purposes or as a means of helping him or her overcome the deficiency and avoid future recurrence, and any action required of him or her.

(f) A statement that the employee may file a grievance under the Agency's Administrative Grievance System contained in EPA Order 3110.8 or under an applicable negotiated grievance procedure, whichever applies.

(2) Placement and Retention of Reprimand in Official Personnel Folder. The supervisor shall retain a copy of the reprimand and forward one copy to the servicing Personnel Office for filing in the employee's official personnel folder. If decided later through the grievance procedure that the reprimand is not warranted, the reprimand must be withdrawn by the Personnel Office from the personnel folder and the employee notified by the Personnel Office of such action. Once the reprimand is removed, it shall be destroyed and regarded as never having occurred. Reference may not be made to the withdrawn action as a previous. official action, and the reprimand may not be used or relied upon to support a subsequent action. Unless withdrawn earlier, a written reprimand shall be removed from the official personnel folder no later than two years from the date of issuance. A reprimand which is removed from the OPF after two years may be referred to in a subsequent adverse action.

b. <u>More Severe Disciplinary Actions</u>. The following corrective actions are considered adverse personnel actions and require that the procedures in EPA Order 3110.6B, Adverse Actions, be followed. Supervisors must consult with their servicing Personnel Office in advance of any proposal to take an adverse action against an employee.

(1) <u>Suspension</u>. Suspension is placing an employee in an involuntary non-duty and non-pay status. Since suspensions result in a loss of productive capacity to the EPA and represent a financial loss to employees, they should be imposed as disciplinary actions only after admonitions or reprimands have been used without success or when the offense requires a more stringent corrective action.

(2) Reduction in Grade. While most actions to reduce compensation and most changes to lower grade will not be for the purpose of disciplining employees, a change to lower grade for cause is a valid disciplinary penalty. There may be instances in which the employee's conduct warrants demoting him or her from the position but not removing him or her from the service.

-4-

(3) <u>Removal</u>. Actions to remove employees from their positions are appropriate when an employee's misconduct, delinquency, carelessness, or negligence are such that a separation from the service must be effected in order to promote the efficiency of the service. Fighting, repeated or prolonged leave abuse, theft, falsification of official documents, repeated infractions involving less severe misconduct, or major violations of Agency codes of conduct are examples of conduct which may require removal from the Pederal Service.

8. <u>DISCUSSIONS WITH EMPLOYEES</u>. Where a labor organization has been accorded exclusive recognition, it has the right to be represented at formal discussions between supervisors or management officials and employees concerning grievances, personnel policies and practices, or other matters affecting general working conditions of employees in the particular unit of recognition. Individual counseling sessions concerning individual problems, actions or work performance conducted by a supervisor with a unit employee are not formal discussions, and there is no reg.irement that the union be given the opportunity to be represented. However, if the situation involves questioning that the employee reasonably believes may result in disciplinary action against him or her, the employee may reguest union representation [5 U.S.C., 7114(a)(2)(B)]. Any questions about meetings with employees and invitations to exclusive union representatives to attend meetings should be discussed with the appropriate servicing Personnel Office prior to holding such meetings.

9. SPECIAL CONSIDERATIONS: ALCOHOL, DRUGS, AND OTHER PERSONAL PROBLEMS. In discussing a conduct or performance problem with an employee, he or she may introduce a problem with alcohol or drugs, or a personal situation which is affecting conduct or performance. In other cases, a supervisor may only suspect the existence of alcohol or drug abuse or a personal problem as the reason for a deficiency. In either of the above situations, supervisors should immediately contact their servicing Personnel Office for guidance and advice on the appropriate steps. In cases of alcohol and drug problems, the Agency is specifically required to offer rehabilitative assistance. Policies and procedures related to the Agency Employee Alcoholism and Drug Abuse Program are contained in EPA Order 3120.3A, dated March 18, 1980.

APPENDIX - GUIDANCE ON CORRECTIVE DISCIPLINE

Determining Appropriate Penalties

The Merit System Projection Board, in <u>Douglas vs. Veterans</u> Administration, MSPB (Weter No. AT075299006 (April 10, 1981), has outlined a number of factors that should be considered in determining the appropriateness of a penalty. While not exhaustive, those generally recognized as relevant include the following:

- The nature and seriousness of the offense, and its relation to the employee's duties, position, and responsibilities, including whether the offense was intentional or technical, or inadvertent, or was committed maliciously or for gain, or was frequently repeated;
- (2) The employee's job level and type of employment, including supervisory or fiduciary role, contacts with the public, and he prominence of the position;
 - (3) The employee's past disciplinary record;
 - (4) The employee's past work record, including length of service, performance on the job, ability to get along with fellow workers, and dependability;
 - (5) The effect of the offense upon the employee's ability to perform at a satisfactory level and its effect upon supervisors' confidence in the employee's ability to perform assigned duties;
 - (6) Consistency of the penalty with those imposed upon other employees for the same or similar offenses;
 - (7) Consistency of the penalty with any applicable agency table of penalties;
 - (8) The notoriety of the offense or its impact upon the reputation of the Agency;
 - (9) The clarity with which the employee was on notice of any rules that were violated in committing the offense, or had been warned about the conduct in question;
 - (10) Potential for the employee's rehabilitation;
 - (11) Mitigating circumstances surrounding the offense such as unusual job tensions, personality problems, mental impairment, harassment, or bad faith, malice or provocation on the part of others involved in the matter; and
 - (12) The adequacy and effectiveness of alternative sanctions to deter such conduct in the future by the employee or others.

۱

Not all of these factors will be pertinent in every case, and frequently in an individual case some of the pertinent factors will weigh in the employee's favor while others may not, or may even constitute aggravating circumstances.

Table of Offenses and Penalties

This table should be used as a guide by supervisors in order to facilitate comparable action throughout the Agency in comparable cases. While penalties for offenses will usually fall within the ranges indicated, in unusual circumstances greater or lesser penalties may be applied unless otherwise provided by law. The list of offenses in this table is not meant to be all inclusive. For offenses not listed, penalties may be imposed which are consistent with penalties listed in the table for offenses of comparable gravity. Days always means calendar days.

| FROM: | (Official Authorized to Effect Action) |
| TO: | (Name of Employee), (Title or Other Designation |

This is a notice that you are officially reprimanded for (offense). (The offense must be specifically described in sufficient detail so that the employee will fully understand the violation, infraction, or other action or omission for which he or she is being reprimanded. In support of the incident, such specifics as time, place, dates and events will be included.) The circumstances which make this reprimand necessary were discussed with you by me (or other individual) on (date).

(In the event the reprimand is a follow-up of previous offenses and the action is considered as a continuation of constructive discipline, the former incidents will be restated and if the employee failed to take any remedial action previously decided upon, that fact shall also be included.)

(The employee shall also be advised as to any specific action required of him or her.)

You may call upon me for any assistance which you may need to help you overcome this deficiency and to avoid future recurrence.

A copy of this reprimand will be filed in your official personnel folder for a period not to exceed two years.

You may file a grievance concerning this action through (Personnel Office will designate applicable grievance system and time limits for filing). You may obtain further information about Agency grievance procedures from ______ in the Personnel Office.
