**2020**

**Memorandum of Understanding on  
Collaborative Efforts between the  
U.S. Environmental Protection Agency and the  
South Carolina Department of Agriculture**

**I. Purpose**

The purpose of this Memorandum of Understanding (MOU) is to formalize and enhance collaboration between the U.S. Environmental Protection Agency (EPA) and the South Carolina Department of Agriculture (SCDA).

The mission of EPA is to protect human health and the environment. The mission of SCDA is to promote and nurture the growth and development of South Carolina's agriculture industry and its related businesses while assuring the safety and security of the buying public. We share the goal of well-managed, sustainable farms that produce food and fiber for our communities and a clean environment for everyone to enjoy.

This MOU formalizes our partnership and expands our collaborative activities related to communication, education, outreach, and training of agricultural practices that benefit the environment. We amplify our commitment to carry out these activities and to engage the broader agricultural community in the pursuit of solutions for environmental protection and agricultural production that move us forward towards achieving our shared goal.

**II. Activities - Together, EPA and SCDA intend to:**

Enhance Communication and Coordination

- Convene annual meetings with EPA Region 4 and SCDA leadership to communicate priorities and activities, share effective approaches, and identify opportunities to collaborate on issues pertaining to agriculture and the environment.
- Share updates throughout the year on relevant environmental and agricultural programs, policies, and activities to ensure communication and coordination on areas of common interest.

Promote Education and Outreach

- Host Agriculture Roundtables and/or Educational Farm Tours to foster a dialogue between EPA and the agricultural community on the successes, challenges, and opportunities to work together to achieve well-managed, productive farms and a clean environment.
- Participate in agricultural events such as State fairs, farm shows, and technical field days to expand open discussion between EPA and the agricultural community.

### Recognize Agricultural Environmental Stewardship and Conservation

- Recognize farmers for their environmental stewardship and conservation efforts that contribute to efficient farms, healthy soils, and clean water. Highlight these achievements to the broader agricultural community.

### **III. Program Accomplishments and Planning**

EPA and SCDA intend to collaborate on an annual accomplishment report to highlight collective achievements realized under this MOU and plans for the coming year.

### **IV. Authorities**

EPA's participation in this MOU is authorized by Section 102(2)(G) of the National Environmental Policy Act, 42 U.S.C. 4332(2)(G); Sections 104(a) and (b) of the Clean Water Act, 33 U.S.C. 1254(a) and (b); and Sections 103(a) and (g) of the Clean Air Act, 42 U.S.C. 7403(a) and (g).

### **V. Limitations**

This MOU is a voluntary agreement that expresses the good-faith intentions of EPA and SCDA. It is not intended to be legally binding, does not create any contractual obligations, and is not enforceable by any signatory agency.

Any commitments by EPA and SCDA in this MOU are subject to the availability of appropriated funds. Nothing in this MOU obligates EPA or SCDA to expend appropriations or to enter into any contract, assistance agreement, interagency agreement, or incur other financial obligations that would be inconsistent with respective agency budget priorities. Except as provided in an EPA assistance agreement, interagency agreement, or other separate agreement between the parties, both parties agree not to submit a claim for compensation for services rendered to the other party in connection with any activities it carries out in furtherance of this MOU. This MOU does not exempt SCDA from EPA policies governing competition for assistance agreements. Any transaction involving reimbursement or contribution of funds between the parties to this MOU will be handled in accordance with applicable laws, regulations, and procedures under separate written agreements.

Nothing in this MOU constitutes an endorsement by any party of the activities, products or services of any party to this agreement, or any other party. The EPA seal, displayed on the cover page of this MOU, may only be used for official EPA purposes, including identifying EPA as a party to this MOU. The SCDA seal, displayed on the cover page of this MOU, may only be used for official SCDA purposes, including identifying SCDA as a party to this MOU.

This MOU does not create any right or benefit, substantive or procedural, enforceable by law or equity, by persons who are not party to this agreement, against EPA or SCDA, their officers or employees, or any other person. This MOU does not apply to any person outside of EPA and SCDA.

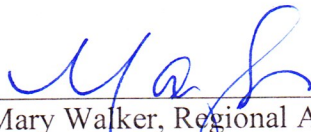

**VI. Commencement/Duration/Modification/Termination**

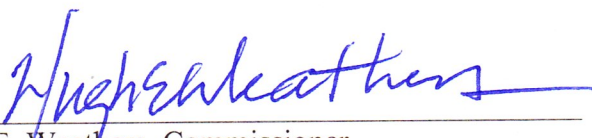

This MOU will remain in effect for five years from the signing date. It may be extended or modified through the mutual written consent of the signatories. Either agency may terminate its participation in this MOU by providing written notice to the other agency 30 days in advance of the desired termination date.

**VI. Approval:**

Representatives of both the U.S. Environmental Protection Agency and the SCDA sign below on June 17, 2020 in recognition of our commitment to move forward with these collaborative efforts.

Signed:

 *June 17, 2020*  
\_\_\_\_\_  
Mary Walker, Regional Administrator  
United States Environmental Protection Agency, Region 4

  
\_\_\_\_\_  
Hugh E. Weathers, Commissioner  
South Carolina Department of Agriculture
