Notes:

1. Please note the report template version provides the periodic report template version (found on the Welcome tab) accepted in CEDRI. If a periodic report template has a version number listed as 1.XX for a given periodic report (e.g., Annual Report), any version template in the Version 1 series (e.g., 1.01, 1.02, 1.03) would be accepted in CEDRI. **A user will only have to download**

and use a new reporting template when there is an incremental change in the whole number of the version number, e.g., from 1.00 to 2.00.

2. For each updated spreadsheet template workbook, view the Revisions worksheet to view changes made to the template.

We will keep you informed of future CEDRI updates by these emails, CDX Alerts, CEDRI notifications on the MyCEDRI Dashboard, and postings on the [CEDRI website](#).
