Great deal. Thanks for the quick response. I have been in contact with Ian on this pit.
Thank you

Hi Joe,

No concerns from Idaho Fish and Game on this action. If you will be mining gravel as well as crushing at this site, I would recommend contacting Idaho Department of Lands who has jurisdiction over gravel pits. The contact there would be Ian Bridges – ibridges@idl.idaho.gov

Subject: Endangered Species clearance for EPA air Quality Permit

Zach and Joe,

I am currently working on an air quality permit application for a crushing operation on the Nez Perce Reservation (located just north of Winchester). I have attached a USFW letter for the referenced project site as well as a Google Earth pin. I need correspondence from the appropriate agencies for any endangered or threatened species concerns. I am hoping you can assist with this project or be able to point me in the right direction. I have already received clearance from Bob Ries with NOAA. We are working diligently with the EPA to meet time restraints for project.

Thanks in advance for your help.

Joe Smith
