The United States Environmental Protection Agency (EPA) issues this Determination of Corrective Action Complete Without Controls to the Liberty University Annex in Lynchburg, Virginia (the Facility). EPA issues this Determination under the authority of the Solid Waste Disposal Act as amended by the Resource Conservation and Recovery Act of 1976 (RCRA) and the Hazardous and Solid Waste Amendments of 1984 (HSWA), 42 U.S.C. § 6901 *et seq.*, and EPA regulations at 40 C.F.R. Parts 260-271 and Part 124. This Determination reflects current EPA guidance titled *Final Guidance on Completion of Corrective Action at RCRA Facilities* (February 25, 2003).

EPA used the administrative procedures found in 40 CFR Part 270 to provide public notice and solicit comment on EPA's Completion Determination. The forty-five (45) day comment period ended on March 28, 2005. EPA did not receive any comments on the Completion Determination. EPA's Completion Determination is based on (1) All closure and post-closure requirements for regulated units have been met, and (2) there is no on-going treatment, storage, or disposal activities that require a permit, and (3) all corrective obligations have been met. Therefore, EPA has determined that no further corrective action is necessary at the Facility.

This Determination completes the corrective action process under HSWA. The facility must continue to comply with all applicable parts of RCRA.
