

US EPA data reflect that the following is a list of all community water systems (CWS), serving a population of 50,000 to 99,999, required to certify completion of a risk and resilience assessment (by December 31, 2020) and an emergency response plan (by June 30, 2021) under Section 2013 of America's Water Infrastructure Act (AWIA). EPA uses the population served number that each CWS reported to its respective primacy agency for the Safe Drinking Water Information System (SDWIS) database as of the date of AWIA's enactment on October 23, 2018.
