

EPA Pollution Prevention Program

**Remote Technical Assistance
Assessments During Covid and Beyond
December 14, 2020**

Webinar Objectives

- Share best practices, resources, and tips for conducting remote assessments
- Provide examples of what works and what doesn't based on experience of presenters
- Begin building a networking community of providers
- Open a dialogue

Benefits of Virtual Assessments

- Protects health of both TAP and facility employees
- Facilitates green business certifications when outside visitors not allowed
- Enables TAPs to provide services when travel not possible
- Multiple TAPs with different expertise can participate, bringing comprehensive expertise to help clients
 - Hazardous waste/wastewater inspectors
 - Utilities
 - Municipalities
 - Manufacturing Extension Partnerships (MEPs)
 - Industrial Assessment Centers (IACs)
 - Lean service providers
 - Interns
