

The Water Infrastructure Finance and Innovation Act (WIFIA) program accelerates investment in our nation's water infrastructure by providing long-term, low-cost supplemental loans for regionally and nationally significant projects.

CITY OF SAN DIEGO

PROJECT NAME: Stormwater Capital Improvement Program

LOCATION: San Diego, CA

INVITED WIFIA LOAN AMOUNT: \$263 million

POPULATION SERVED BY PROJECT: 1,430,000

PROJECT TYPE: Stormwater

PROJECT DESCRIPTION:

The City of San Diego Stormwater Capital Improvement Program will include planning, design, and construction of all assets within the City's Stormwater System including natural waterways, conveyance pipes, outfalls, drains, pump stations, channels, and green infrastructure. The purpose of these projects is to improve the water quality of stormwater and reduce flood risk via the replacement, implementation, or restoration of deteriorated stormwater infrastructure that has reached its useful life and incorporate new stormwater mitigation methods to prioritize and meet stormwater requirements.

FY 2020 SELECTION ROUND

NUMBER OF PROJECTS SELECTED: 55

TOTAL LOAN AMOUNT: \$5.1 billion

TOTAL WATER INFRASTRUCTURE INVESTMENT SUPPORTED: \$12.5 billion

NUMBER OF PEOPLE IMPACTED:
25 million in 20 states

Selected projects must submit an application for a WIFIA loan, pass a creditworthiness assessment, negotiate a mutually agreeable term sheet, and execute a credit agreement to receive WIFIA funding. An invitation to apply indicates that EPA believes the selected projects will be able to attain WIFIA loans.
