

CITY OF SANDY

PROJECT NAME: Wastewater System Improvements Project – Phase 1

LOCATION: Sandy, OR

INVITED WIFIA LOAN AMOUNT: \$33 million

POPULATION SERVED BY PROJECT: 11,075

PROJECT TYPE: Combined

PROJECT DESCRIPTION:

The Wastewater System Improvements Project Phase 1 will improve three major components of the City's existing wastewater facilities to provide a year-round discharge to a water body with greater assimilative capacity. The project will include: 1) rehabilitation of the collection system in the City's two largest sewersheds; 2) construction of the new Eastside Satellite membrane bioreactor wastewater treatment plant; and 3) construction of a new Sandy River outfall. The purpose of the project is to reduce peak flows, expand wastewater treatment capacity, and provide a year-round discharge to a larger receiving waterbody.

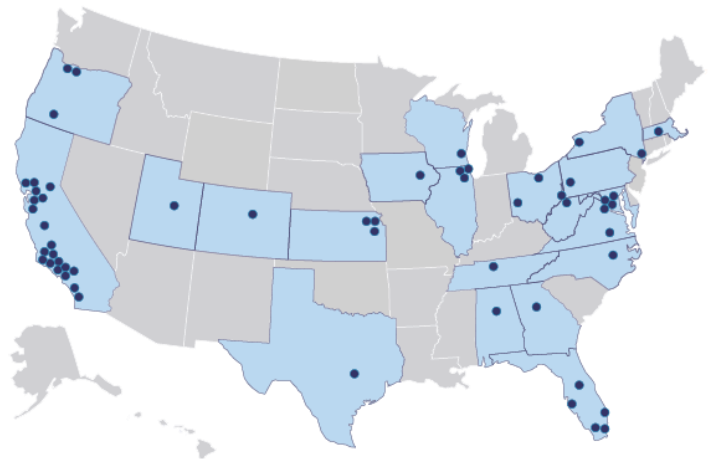

FY 2020 SELECTION ROUND

NUMBER OF PROJECTS SELECTED: 55

TOTAL LOAN AMOUNT: \$5.1 billion

TOTAL WATER INFRASTRUCTURE INVESTMENT SUPPORTED: \$12.5 billion

NUMBER OF PEOPLE IMPACTED:
25 million in 20 states

Selected projects must submit an application for a WIFIA loan, pass a creditworthiness assessment, negotiate a mutually agreeable term sheet, and execute a credit agreement to receive WIFIA funding. An invitation to apply indicates that EPA believes the selected projects will be able to attain WIFIA loans.
