

APPENDIX G

SOUTH DAKOTA ADMINISTRATIVE RULE 74:02:04:26

74:02:04:26. Well construction prohibited along sections of Whitewood Creek and sections of Belle Fourche River -- Variance. No well that supplies water to the public as described in §74:02:04:30 or that supplies water for household domestic use or for agricultural purposes may be constructed in the 100-year flood plain of Whitewood Creek from the Crook City Bridge, above the town of Whitewood, Lawrence County, in the Northeast Quarter of the Northeast Quarter of Section 33, Township 6 North, Range 4 East of the Black Hills Meridian, downstream to the confluence of Whitewood Creek and the Belle Fourche River, Butte County, in the Northeast Quarter of the Northeast Quarter of Section 24, Township 8 North, Range 5 East, and the 100-year flood plain of the Belle Fourche River to two and one-half miles downstream from the confluence of Whitewood Creek, Butte County, in the Southwest Quarter of the Southwest Quarter of Section 20, Township 8 North, Range 6 East. A variance may be granted from this section if it is shown that a well in this location will not be contaminated from tailings deposits and will not cause ground water pollution. The variance shall be by written order of the chief engineer or the Board.
