EPA REGION III General Instructions for Applications for Grants and Cooperative Agreements

I. Submission Requirements

A. Due Dates

1. Environmental Programs Grants 40 CFR Part 35, Subpart A

A complete (final) application should be submitted at least 60 days before the beginning of the next budget period.

If EPA executes a continuation agreement, EPA will reimburse the recipient for allowable costs incurred between the end of a budget period and the date of award for the next budget period, if the application was received by EPA before the beginning of the budget period.

Failure to comply with these requirements will result in any pre-award costs incurred being borne by the applicant, unless a formal request for a deviation from 40 CFR §35.113, as appropriate, is submitted to EPA and approved by the Director, Grants Administration Division.

A listing of the programs covered by 40 CFR Part 35, Subpart A can be found in Appendix A.

2. <u>Project Grants not established as "Continuation Awards"; e.g. Grants having</u> the same project and budget periods.

Applications should be submitted according to the timetable(s) established by program guidance or funding opportunity announcement for competitive programs.

Allowable costs up to 90 calendar days prior to award can be reimbursed without EPA prior written approval as long as there are sufficient programmatic reasons for incurring the expenditure and the costs are included in the approved application and are allowable under the competitive funding opportunity announcement.

3. <u>Project Grants established as "Continuation Awards" which are not Environmental Program Grants under 40 CFR Part 35, Subpart A.</u>

"Continuation Applications" for this class of project grants have predetermined multi-year project periods, and usually one year budget periods. The first budget period award is a "new" award. Succeeding budget period awards, within predetermined project period, are "continuation awards". When the last

budget period of the project has been funded, a new multi-year project period must be established.

A complete (final) application should be submitted at least 60 days before the beginning of the next budget period.

Allowable costs up to 90 calendar days prior to award can be reimbursed without EPA prior

written approval as long as there are sufficient programmatic reasons for incurring the expenditure and the costs are included in the approved application.

B. Number of Copies and Where to Submit (choose one type of submission)

II. Contents of Application Package to be Submitted to EPA

A checklist itemizing the various parts of an application package is attached to the example included in this kit. The following section briefly describes each part.

A. Application Form

The following forms and instructions on completing the forms can be located online at: http://www.epa.gov/region3/grants/index.htm or samples of completed forms can be found in Appendix B.

- Standard Form 424 (Version 02), "Application for Federal Assistance". This
 form must be completed and must bear the original signature of the
 authorized representative and the date signed. The Dun and Bradstreet
 (DUNS) number for the applicant organization must be included in Block 8(c).
 If you do not have a DUNS number, you can obtain one by calling 1-866705-5711 or on-line at: http://dunandbradstreet.com
- 2. Standard Form 424A (Rev. 7-97), "Budget Information Non-Construction Programs", Sections A through F must be completed.

a. Budget Support Detail

Since EPA must conduct a cost or budget analysis of each application to determine that proposed costs are both reasonable and allowable (as well as allocable), each application must provide sufficient detail to support cost estimates by budget object class categories. This information should be presented on separate sheets, following the Sample Budget Detail in Appendix B, and should be headed "Budget Detail". The budget detail information is not required for "small grants", as defined in Paragraph IV, unless specifically requested by EPA. A guide to preparing the budget detail is included in this kit together with an example which shows how a completed application, except for the narrative, should look.

Budget detail for personnel and travel categories is not required for applicants of Program and Performance Partnership Grants under 40 CFR Part 35,

Subpart A and other continuing environmental programs (see Appendix A) such as Chesapeake Bay Program State Grants and State Beach Monitoring; if the applicant has provided EPA with an acceptable assurance that its personnel and travel systems have adequate internal controls. See page entitled "New Cost Review Guidance" for additional information.

B. Attachments Required

The following forms must be submitted with the application. The forms and instructions on completing the forms can be located on-line at: http://www.epa.gov/region3/grants/index.htm or samples can be found in Appendix B.

- Standard Form 424B (Rev. 7-97), "Assurances Non Construction Programs". The back of this form must bear the original signature of the authorized certifying official, his/her title, applicant organization, and date submitted.
- 2. EPA Form 5700-54 (Rev. 7-2009), "Key Contacts Form". This form must be completed.
- Certification Regarding Lobbying "Certification for Contracts, Grants, Loans, and Cooperative Agreement". This form must bear the original signature of the authorized certifying official, his/her title, applicant organization, and the date signed.
- 4. Standard Form LLL (Rev. 7-97) "Disclosure of Lobbying Activities". If applicable, this form must be completed and bear the original signature and printed name of the authorized official, his/her title, telephone number, and the date signed.
- 5. EPA Form 4700-4 (Rev. 03/2008), "Pre-Award Compliance Review Report for All Applicants and Recipients Requesting EPA Financial Assistance". This form must be completed and must bear the original signature of the authorized official, his/her title, and the date signed.
- Copy of current negotiated Indirect Cost Agreement (if indirect costs are budgeted).

Effective July 1, 2008, applicants for Program and Performance Partnership Grants awarded under 40 CFR Part 35, Subpart A do not have to submit Attachments Numbers 1, 3, 5, and 6 above if the applicant has submitted an acceptable "bundled" assurances/certification package containing these forms.

A. Assistance Agreement Work Plans

The program narrative or work plan must include well-defined outputs, and to the maximum extent practicable, well-defined outcomes in accordance with EPA's Policy for Environmental Results under EPA Assistance Agreements (EPA Order 5700.7). For assistance applications under 40 CFR Part 35, Subpart A, work plans must comply with the requirements of 40 CFR 35.107.

EPA's Policy for Environmental Results under EPA Assistance Agreements (EPA Order 5700.7) is available at the following web address: http://www.epa.gov/ogd/grants/award/5700.7.pdf

Definitions, for purpose of EPA's Environmental Results Policy:

Output: An environmental activity or effort, and/or associated work products that are produced or provided over a specific period of time. Outputs may be quantitative or qualitative but must be measurable during an assistance agreement funding period.

<u>Outcome</u>: The result, effect, or consequence that will occur from carrying out an environmental program or activity that is related to an environmental or programmatic goal or objective. Outcomes may be environmental, behavioral, health-related, or programmatic in nature, must be quantitative, and may not necessarily be achievable within an assistance agreement funding period.

Intermediate vs End Outcomes: Intermediate Outcomes can reasonably be expected to lead to the desired result or ultimate End Outcome of a project or program. For example, for an air pollution program assistance agreement, reductions in pollution emissions may be viewed as an intermediate outcome to measure progress toward meeting or contributing to end outcomes of improved ambient air quality and reduced mortality from air pollution. Given that the end outcomes of an assistance agreement may not occur until after the assistance agreement funding period, intermediate outcomes realized during the funding period are an important way to measure progress in achieving end outcomes.

The Relationship Between Outputs and Outcomes is illustrated by the following example: Assistance agreement for an outreach program to building code officials on radon-resistant building techniques: Outputs would include development of a model building code manual and training sessions on the benefits of radon-resistant construction. Intermediate outcomes would be the enactment of local building codes and the actual construction of radon-resistant houses. This would contribute to an end outcomes of improved indoor air quality.

III. Post-Award Requirements

Post-award requirements are covered in 40 CFR Part 30, Subparts C and D for Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations and in 40 CFR Part 31, Subpart C, for State and local governments and supplemented by any terms and conditions included in the assistance agreement. Reporting requirements and method of payment are generally included in the terms and conditions. You may also refer to the website at: http://www.epa.gov/region3/grants/index.htm for information on managing your grant and reporting forms.

A. Required Reports

The following forms and instructions on completing the forms can be located online at: http://www.epa.gov/region3/grants/index.htm

- Standard Form 269A (Rev. 7-97), "Financial Status Report (Short Form)".
 Due within 90 days after the end of the budget period. Where a budget period is for longer than one year, the SF-269A must be submitted at least annually. The "Short Form" should be used unless program income has been accrued.
- 2. Standard Form 269 (Rev. 7-97), "Financial Status Report (Long Form)". The reporting frequency is the same as for SF-269A. The "Long Form" should be used whenever a project earns program income.
- 3. Standard Form 272 (Rev. 7-97), "Federal Cash Transactions Report". This report must be submitted annually. This annual report is due by January 15.
- EPA Form 5700-52A (Approved 10/31/06), "MBE/WBE Utilization Under Federal Grants, Cooperative Agreements, and other Interagency Agreements" must be submitted within 30 days of the end of the reporting period to Romona McQueeen, Small Business Program Manager (3PM00), U. S. EPA - Region III, 1650 Arch Street, Philadelphia, PA 19103-2029.
 - a. The following recipients report on an annual basis:
 - Recipients of Continuing Environmental Program Grants under 40 CFR Part 35, Subpart A; and
 - Institutions of higher education, hospitals and other non-profit organizations receiving financial assistance agreements under 40 CFR Part 30.

The reports must be submitted **annually** for the period ending September 30th. Recipients have 90 days from the end of the grant period to submit the final report.

- b. The following recipients report on a semi-annual basis:
 - Recipients of financial assistance agreements that capitalize revolving loan funds; and
 - · All other recipients not specified as "annual reporters".

The reports must be submitted **semiannually** for the periods ending March 31st and September 30th. Recipients have 90 days from the end of the grant period to submit the final report.

B. Methods of Payment

Payments will be made to recipients through the EPA Electronic Funds Transfer (EPA-EFT) system or Automated Standard Application for Payments (ASAP) as described below unless it is determined that the recipient does not meet the financial management system standards contained in 40 CFR §30.21 or §31.20, as appropriate.

1. The EPA Automated Clearinghouse (EPA-ACH) Payment System has been replaced by the EPA-EFT system, however, all forms, terms, and conditions in the EPA-ACH manual still apply. The Recipient's Manual for the EPA-ACH Payment System provides instructions to recipients who meet the requirements for using this electronic method of payment. Enrollment is accomplished through completing and returning the Standard Form 3881 (Rev. 12/90), "ACH Vendor/Miscellaneous Payment Enrollment Form" to the U.S. EPA/Las Vegas Finance Center. The Recipient's Manual, forms, and EPA payment information can be obtained at the following website: http://www.epa.gov/ocfo/finservices/payinfo.htm

The U.S. EPA Payment Request Form, "EPA 190-F-04-001", is to be sent to the U.S. EPA/Las Vegas Finance Center via fax or mail. Payment is usually forwarded to your financial institution within four business days. Recipients of certain types of grants and recipients who have been designated as "high risk" may be paid on a reimbursable basis through the submission of the Standard Form 270 (Rev. 7-97), "Request for Advance Reimbursement" or Standard Form 271 (Rev. 7-97), "Outlay Report and Request for Reimbursement for Construction Programs".

Payment requests should not be made in excess of immediate disbursement needs. If our records indicate that funds were paid in

excess of actual disbursement needs, the recipient will be requested to send a refund to:

U.S. EPA
Las Vegas Finance Center
P.O. Box 979087
St. Louis, MO 63197-9000
Checks should be made payable to: U.S. EPA

To send an EFT (wire transfer):

TREAS NYC
New York City, NY
ABA No. 021030004
Credit EPA Account No.: 68011233

To Federal Express a payment to the lockbox (street address):

U.S. Bank Government Lockbox 979087 1005 Convention Plaza SL-MO-C2-GL St. Louis, MO 63101

Customer Service Phone Numbers:

314-418-1028 (tentative)

Insure that sufficient detailed information (assistance number, fiscal year, and brief explanation of why the refund check is necessary) is included with your refund so that EPA may properly process your payment. If preferred, an offset may be made against a future request by the overpayment amount rather than a refund, provided the third party information is properly shown.

 ASAP System is an all-electronic payment and information system developed jointly by the U.S. Treasury and the Federal Reserve Bank of Richmond. The "one time" enrollment in ASAP is initiated by contacting the U.S. EPA/Las Vegas Finance Center (702) 798-2485. Information on ASAP can be found on-line at the U.S. Treasury website: http://www.fms.treas.gov/asap.

Once enrolled in the system by Treasury, EPA will then establish your grant account. You may use the on-line process or telephonic voice response system to request payment from EPA. If the assistance

agreement does not require prior payment approval, then payment requests are approved or rejected automatically based on the amount of available funds and/or the grant expiration dates. Payments are usually received the next day. For agreements which require payment approval, such as construction grants and recipients who have been designated as "high risk", approval procedures will be established in ASAP by the U.S. EPA/Las Vegas Finance Center. With ASAP, you can also view account data on-line, such as up-to-the minute account balances, account history, and the status of payment requests.

IV. <u>Intergovernmental Review of Environmental Protection Agency Programs and Activities</u>

The intergovernmental review process, established in 40 CFR Part 29, enables all States to follow state-specific procedures to coordinate State and local review of projects proposed under EPA assistance programs. Block 16 of the SF 424 should be filled out and indicate the date when the application was sent to the State Single-Point-of-Contact (SPOC) or appropriate planning agency. Appendix D explains the intergovernmental review process and also includes a listing of SPOCs and a listing of local, regional, and area-wide planning agencies.

V. Quality Assurance Requirements

Appendix E explains the quality assurance requirements that apply to grants and cooperative agreements that involve the use of environmental data.

INSTRUCTIONS FOR THE SF-424A

Public reporting burden for this collection of information is estimated to average 180 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0044), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

General Instructions

This form is designed so that application can be made for funds from one or more grant programs. In preparing the budget, adhere to any existing Federal grantor agency guidelines which prescribe how and whether budgeted amounts should be separately shown for different functions or activities within the program. For some programs, grantor agencies may require budgets to be separately shown by function or activity. For other programs, grantor agencies may require a breakdown by function or activity. Sections A, B, C, and D should include budget estimates for the whole project except when applying for assistance which requires Federal authorization in annual or other funding period increments. In the latter case, Sections A, B, C, and D should provide the budget for the first budget period (usually a year) and Section E should present the need for Federal assistance in the subsequent budget periods. All applications should contain a breakdown by the object class categories shown in Lines a-k of Section B.

Section A. Budget Summary Lines 1-4 Columns (a) and (b)

For applications pertaining to a *single* Federal grant program (Federal Domestic Assistance Catalog number) and *not requiring* a functional or activity breakdown, enter on Line 1 under Column (a) the Catalog program title and the Catalog number in Column (b).

For applications pertaining to a *single* program *requiring* budget amounts by multiple functions or activities, enter the name of each activity or function on each line in Column (a), and enter the Catalog number in Column (b). For applications pertaining to multiple programs where none of the programs require a breakdown by function or activity, enter the Catalog program title on each line in *Column* (a) and the respective Catalog number on each line in Column (b).

For applications pertaining to *multiple* programs where one or more programs *require* a breakdown by function or activity, prepare a separate sheet for each program requiring the breakdown. Additional sheets should be used when one form does not provide adequate space for all breakdown of data required. However, when more than one sheet is used, the first page should provide the summary totals by programs.

Lines 1-4, Columns (c) through (g)

For new applications, leave Column (c) and (d) blank. For each line entry in Columns (a) and (b), enter in Columns (e), (f), and (g) the appropriate amounts of funds needed to support the project for the first funding period (usually a year).

For continuing grant program applications, submit these forms before the end of each funding period as required by the grantor agency. Enter in Columns (c) and (d) the estimated amounts of funds which will remain unobligated at the end of the grant funding period only if the Federal grantor agency instructions provide for this. Otherwise, leave these columns blank. Enter in columns (e) and (f) the amounts of funds needed for the upcoming period. The amount(s) in Column (g) should be the sum of amounts in Columns (e) and (f).

For supplemental grants and changes to existing grants, do not use Columns (c) and (d). Enter in Column (e) the amount of the increase or decrease of Federal funds and enter in Column (f) the amount of the increase or decrease of non-Federal funds. In Column (g) enter the new total budgeted amount (Federal and non-Federal) which includes the total previous authorized budgeted amounts plus or minus, as appropriate, the amounts shown in Columns (e) and (f). The amount(s) in Column (g) should not equal the sum of amounts in Columns (e) and (f).

Line 5 - Show the totals for all columns used.

Section B Budget Categories

In the column headings (1) through (4), enter the titles of the same programs, functions, and activities shown on Lines 1-4, Column (a), Section A. When additional sheets are prepared for Section A, provide similar column headings on each sheet. For each program, function or activity, fill in the total requirements for funds (both Federal and non-Federal) by object class categories.

Line 6a-i - Show the totals of Lines 6a to 6h in each column.

Line 6j - Show the amount of indirect cost.

Line 6k - Enter the total of amounts on Lines 6i and 6j. For all applications for new grants and continuation grants the total amount in column (5), Line 6k, should be the same as the total amount shown in Section A, Column (g), Line 5. For supplemental grants and changes to grants, the total amount of the increase or decrease as shown in Columns (1)-(4), Line 6k should be the same as the sum of the amounts in Section A, Columns (e) and (f) on Line 5.

Line 7 - Enter the estimated amount of income, if any, expected to be generated from this project. Do not add or subtract this amount from the total project amount, Show under the program

For new applications and continuation grant applications, enter in the proper columns amounts of Federal funds which will be needed to complete the program or project over the succeeding funding periods (usually in years). This section need not be completed for revisions (amendments, changes, or supplements) to funds for the current year of existing grants.

If more than four lines are needed to list the program titles, submit additional schedules as necessary.

Line 20 - Enter the total for each of the Columns (b)-(e). When additional schedules are prepared for this Section, annotate accordingly and show the overall totals on this line.

Instructions for EPA FORM 4700-4 (Rev. 03/2008)

General

Recipients of Federal financial assistance from the U.S. Environmental Protection Agency must comply with the following statutes and regulations.

Title VI of the Civil Rights Acts of 1964 provides that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. The Act goes on to explain that the statute shall not be construed to authorize action with respect to any employment practice of any employer, employment agency, or labor organization (except where the primary objective of the Federal financial assistance is to provide employment).

Section 13 of the 1972 Amendments to the Federal Water Pollution Control Act provides that no person in the United States shall on the ground of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under the Federal Water Pollution Control Act, as amended. Employment discrimination on the basis of sex is prohibited in all such programs or activities.

Section 504 of the Rehabilitation Act of 1973 provides that no otherwise qualified individual with a disability in the United States shall solely by reason of disability be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. Employment discrimination on the basis of disability is prohibited in all such programs or activities.

The Age Discrimination Act of 1975 provides that no person on the basis of age shall be excluded from participation under any program or activity receiving Federal financial assistance. Employment discrimination is not covered. Age discrimination in employment is prohibited by the Age Discrimination in Employment Act administered by the Equal Employment Opportunity Commission.

Title IX of the Education Amendments of 1972 provides that no person in the United States on the basis of sex shall be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance. Employment discrimination on the basis of sex is prohibited in all such education programs or activities. Note: an education program or activity is not limited to only those conducted by a formal institution.

40 C.F.R. Part 5 implements Title IX of the Education Amendments of 1972.

40 C.F.R. Part 7 implements Title VI of the Civil Rights Act of 1964, Section 13 of the 1972 Amendments to the Federal Water Pollution Control Act, and Section 504 of The Rehabilitation Act of 1973.

The Executive Order 13166 (E.O. 13166) entitled; "Improving Access to Services for Persons with Limited English Proficiency" requires Federal agencies work to ensure that recipients of Federal financial assistance provide meaningful access to their LEP applicants and beneficiaries.

Items

"Applicant" means any entity that files an application or unsolicited proposal or otherwise requests EPA assistance. 40 C.F.R. §§ 5.105, 7.25.

"Recipient" means any entity, other than applicant, which will actually receive EPA assistance. 40 C.F.R. §§ 5.105, 7.25.

"Civil rights lawsuits and administrative complaints" means any lawsuit or administrative complaint alleging discrimination on the basis of race, color, national origin, sex, age, or disability pending or decided against the applicant and/or entity which actually benefits from the grant, but excluding employment complaints not covered by 40 C.F.R. Parts 5 and 7. For example, if a city is the named applicant but the grant will actually benefit the Department of Sewage, civil rights lawsuits involving both the city and the Department of Sewage should be listed.

"Civil rights compliance review" means any review assessing the applicant's and/or recipient's compliance with laws prohibiting discrimination on the basis of race, color, national origin, sex, age, or disability.

Submit this form with the original and required copies of applications, requests for extensions, requests for increase of funds, etc. Updates of information are all that are required after the initial application submission.

If any item is not relevant to the project for which assistance is requested, write "NA" for "Not Applicable."

In the event applicant is uncertain about how to answer any questions, EPA program officials should be contacted for clarification.

- * Questions VII XI are for informational use only and will not affect an applicant's grant status. However, applicants should answer all questions on this form. (40 C.F.R. Parts 5 and 7).
- ** Note: Signature appears in the Approval Section of the EPA Comprehensive Administrative Review For Grants/Cooperative Agreements & Continuation/Supplemental Awards form.

Approval indicates, in the reviewer's opinion, questions I-VI of Form 4700-4 comply with the preaward administrative requirements for EPA assistance.

"Burden Disclosure Statement"

EPA estimates public reporting burden for the preparation of this form to average 30 minutes per response. This estimate includes the time for reviewing instructions, gathering and maintaining the data needed and completing and reviewing the form. Send comments regarding the burden estimate, including suggestions for reducing this burden, to U.S. EPA, Attn: Collection Strategies Division (MC 2822T), Office of Information Collection, 1200 Pennsylvania Ave., NW, Washington, D.C. 20460; and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503.

The information on this form is required to enable the U.S. Environmental Protection Agency to determine whether applicants and prospective recipients are developing projects, programs and activities on a nondiscriminatory basis as required by the above statutes and regulations.

Guide to Preparing Budget Detail

The Part III Budget Information (SF-424A) should be supported in at least the level of detail described below.

When there is a match or cost-sharing requirement, the provisions of 40 CFR §30.23 or §31.24, as appropriate, must be met. All in-kind contributions used to meet match or cost-share requirements shall be fully documented.

-	Personnel*	List all staff positions by title. Give annual salary, percentage of time assigned to the project, and total cost for the budget period.				
-	Fringe Benefits	Identify the percentage used, the basis for its computation, and the types of benefits included.				
-	Travel*	Specify the mileage, per diem, estimated number of trips instate and out-of-state, and other costs for each type of travel.				
	Equipment	Identify each item of equipment to be purchased which has an estimated acquisition cost of \$5,000 or more per unit and a useful life of more than one year. Items with a unit cost of less than \$5,000 are deemed to be supplies, pursuant to 40 CFR §30.2(I) and §31.3. Lower limits for equipment can be established if consistent with applicant's policy.				
	No equipment may be purchased without the express approval of EPA. The					

No equipment may be purchased without the express approval of EPA. The assistance agreement shall indicate the total approved amount of the grant which may be expended for equipment. Any equipment purchases proposed after award which are not included in the assistance agreement must be approved by EPA in writing.

-	Supplies	"Supplies" means all tangible personal property other than equipment. The budget detail should identify categories of supplies to be procured: e.g., laboratory supplies or office supplies.
-	Contractual	Identify each proposed contract and specify its purpose, nature, and estimated cost.
		Interagency/Intergovernmental Agreements should be listed under "Other".
-	Other	List each item in sufficient detail for EPA to determine the reasonableness and allowability of its cost.
-	Indirect Charges**	If indirect charges are budgeted, indicate the approved rate and its base on line 22, Section F of the SF-424A. Also, include a copy of your current indirect cost agreement which reflects the approved rate.

*Budget detail for personnel and travel categories is not required for applicants of Program and Performance Partnership Grants under 40 CFR Part 35, Subpart A and other continuing environmental programs (see Appendix A) such as Chesapeake Bay Program State Grants and State Beach Monitoring; if the applicant has provided EPA with an acceptable assurance that its personnel and travel systems have adequate internal controls. See next page for additional information on New Cost Review Guidance.

^{**}If you budget at a rate lower than your approved rate, you must provide an explanation for the difference.

New Cost Review Guidance

EPA has developed new cost review guidance for continuing environmental program grants. The guidance provides opportunities for states and other applicants to reduce the level of information they provide for personnel and travel costs in their grant applications, in addition to streamlining EPA's cost review process. A list of the programs covered by the guidance is in Appendix A.

To implement the guidance, your organization would need to provide a written assurance that it has adequate internal controls for its personnel and travel cost systems. Once EPA approves an assurance, EPA will limit its review of personnel and travel categories in accordance with the guidance. These assurances will <u>not</u> have to be resubmitted in future fiscal years unless the systems change.

This assurance is only applicable to the grant programs in Appendix A. Any grant application submitted by your office for programs not included in Appendix A must submit budget information in the same manner as previously submitted.

Following are some of the procedures for applying this guidance when submitting future EPA grant applications:

- When you are requesting a multi-year grant, the budget must be broken down by year.
- You must provide in the application the estimated work years and funding amounts for each work plan component, as required by 40 CFR 35.170(b)(2)(ii).
- Although you are not required to itemize the travel costs, you must include a narrative describing the purpose and types of travel. For example, travel is for inspections, conference and meeting attendance. The only exception is for foreign travel, which must be itemized.
- If the personnel and travel categories vary by more than ten percent (10%) from the previous year's application request, a written explanation for the variation must be provided. For example, if travel costs rose by 12% from the previous year, the applicant would need to explain the reason for the change; a reasonable explanation might be an organization-wide increase in per diem rates.

FACT SHEET FOR APPLICANTS INTERGOVERNMENTAL REVIEW PROCESS

When submitting your application for Federal assistance, please observe the following steps pertaining to the intergovernmental review process.

- 1. Identify whether or not the respective program is eligible for intergovernmental review under Executive Order (E.O.) 12372. A listing of EPA programs which are eligible for intergovernmental review can be found in the April 29, 2004 Federal Register (69 FR 23500.) The Catalog of Federal Domestic Assistance (CFDA) also lists programs eligible for intergovernmental review under E.O. 12372. The CFDA listing can be found at http://www.cfda.gov, under "Search for Assistance Programs," then "By Programs Requiring Executive Order 12372 Review."
- 2. After confirming the program's intergovernmental review eligibility, indicate whether your application is subject to the process by responding to the E.O. 12372 question on the SF-424, Application for Federal Assistance.
- 3. If a program is eligible for the intergovernmental review process, you must respond accordingly on the application, and forward a copy of your completed application to your State Single-Point-of-Contact (SPOC). The official SPOC listing is located at: http://www.whitehouse.gov/omb/grants/spoc.html. By clicking on the state name, you may be linked to the SPOC website. Before forwarding a copy of your application, you may call the SPOC directly to determine if that office has chosen to review the program.
- 4. If the SPOC has chosen not to review the program, or if your State does not have a SPOC, you must forward a copy of your completed application to the areawide/regional/local planning agency (or agencies), so that they may have the opportunity to review your application for comment. You may consult your local EPA office to obtain contact information for the planning agency in your area.
- 5. Keep in mind that once you sign the SF-424, you are certifying that the SPOC or areawide/ regional/local planning agency has received or will receive a copy of your application. Your application might be considered deficient if a copy of your application is not forwarded to one of those agencies.
- 6. The application must be sent to the SPOC or areawide/regional/local planning agency in a timely manner, in order for it to be reviewed before the end of the respective comment period. Under E.O. 12372, the comment period is 60 days for new and competitive awards, and 30 days for non-competing continuation awards.
- 7. If you subsequently receive comments about your application from the SPOC or areawide/ regional/local planning agency, you should forward them immediately to the EPA office (generally the awarding office) where you mailed your application package. Before making a funding decision, EPA is required to consider comments made by the SPOC or planning agency. Therefore, the awarding office may contact you to discuss concerns that may have been raised by the SPOC or planning agency.

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY REGION III ENVIRONMENTAL SCIENCE CENTER 701 MAPES ROAD FORT MEADE, MARYLAND 20755-5350

REGION III QUALITY ASSURANCE REQUIREMENTS GRANTS AND COOPERATIVE AGREEMENTS November 7, 2000

Quality Management Plan (QMP) Requirement

This QA requirement applies to all grants, cooperative agreements, contracts and interagency agreements that involve the use of environmental data. Environmental data is defined as direct measurements of environmental conditions or releases, such as sample collection and analysis. Environmental data also includes data collected from secondary sources of information, such as computer databases, computer models, literature files and historical databases. This data may be used for a variety of purposes, such as characterization of ecological effects, the health of human populations or the performance of environmental technology.

In accordance with 40 CFR 30.54 and 31.45, the recipient must develop and implement quality assurance policies and practices that are sufficient to produce data of adequate quality to meet program objectives. These policies and practices must be documented in a Quality Management Plan (QMP). The QMP should be prepared in accordance with EPA QA/R-2: EPA Requirements for Quality Management Plans. EPA QA/R-2 replaces EPA guidance document QAMS-004/80. The recipient's QMP should be reviewed and updated annually as needed.

Should there be multiple programs involved in a grant, cooperative agreement or interagency agreement, at the recipient's discretion, they may submit one of the following:

- a. A single QMP covering all of the programs in the grant or agreement or
- b. A separate QMP for each program receiving the grant or agreement funds.

For certain grants and agreements, the EPA Project Officer may allow the recipient to submit a combined Quality Management Plan/Quality Assurance Project Plan (QMP/QAPP). The minimum EPA requirements for a Quality Management Plan and a Quality Assurance Project Plan must be included in the combined QMP/QAPP.

The QMP or combined QMP/QAPP must be submitted to the EPA Project Officer at least 45 days prior to the initiation of data collection or data compilation. Prior to environmental data collection or data compilation, the QMP or combined QMP/QAPP must be approved by the EPA Regional Quality Assurance Manager.

Quality Assurance Project Plan (QAPP) Requirement

This QA requirement applies to all grants, cooperative agreements, contracts and interagency agreements that involve the use of environmental data. Environmental data is defined as direct measurements of environmental conditions or releases, such as sample collection and analysis. Environmental data also includes data collected from secondary sources of information, such as computer databases, computer models, literature files and historical databases. This data may be used for a variety of purposes, such as characterization of ecological effects, the health of human populations or the performance of environmental technology.

In accordance with 40 CFR 30.54 and 31.45, the recipient must develop and implement quality assurance and quality control procedures, specifications and documentation that are sufficient to produce data of adequate quality to meet project objectives. The Quality Assurance Project Plan (QAPP) is the document that provides comprehensive details about the quality assurance/quality control requirements and technical activities that must be implemented to ensure that project objectives are met. The QAPP should be prepared in accordance with EPA QA/R-5: EPA Requirements for Quality Assurance Project Plans. EPA QA/R-5 replaces EPA QAMS 005/80.

The QAPP must be submitted to the EPA Project Officer at least 30 days prior to the initiation of data collection or data compilation.

Prior to environmental data collection or data compilation, the QAPP must be approved by the EPA Project Officer. When the recipient is delegating the responsibility for an environmental data collection or data compilation activity to another organization, the EPA Regional Quality Assurance Manager may allow the recipient to review and approve that organization's QAPP.

QA Requirement for Lead Grants (Combined QMP/QAPP)

For lead grants, the recipient must develop a combined QMP/QAPP that meets the requirements found in the Region III Lead Program Quality Assurance Project Plan Guidance. A copy of this guidance document can be obtained from the Region III Hotline. The hotline number is 1 (800) 438-2474. The combined QMP/QAPP must be submitted to the EPA Project Officer at least 30 days prior to the initiation of data collection or data compilation. Prior to environmental data collection or data compilation, the combined Lead QMP/QAPP must be approved by the EPA Project Officer and the Waste and Chemicals Management Division's QA Coordinator.

QA Requirement for Brownfields Cooperative Agreements (Combined QMP/QAPP)

For cooperative agreements awarded for Brownfields' projects, the recipient must develop QA documents that meet the requirements found in 40 CFR Part 30 and the US EPA Quality Assurance Guidance for Conducting Brownfields Site Assessments. A copy of the US EPA Quality Assurance Guidance for Conducting Brownfields Site Assessments can be downloaded from the Internet at http://www.epa.gov/swerosps/bf/pdf/bfqag4.pdf.

Customer Service Hotline: 1-800-438-2474

Phase I environmental site assessments are nonintrusive, desktop studies which must be conducted in accordance with the most recent version of the American Society for Testing and Materials (ASTM) Practice E1527 (Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process). E1527 identifies the practices that constitute all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice. Upon completion of the Phase I assessment, the recipient must submit a copy of the Phase I Report to the EPA Brownfields Project Officer or designated EPA Brownfields Project Representative.

If the EPA Brownfields Project Officer or designated EPA Brownfields Project Representative authorizes the initiation of a Phase II assessment, the recipient must prepare a combined QMP/QAPP. This combined QMP/QAPP must be prepared in accordance with the U.S. EPA Region III Generic Quality Assurance Project Plan (QAPP) Template. A copy of the US EPA Region III Generic Quality Assurance Project Plan Template can be obtained from the EPA Brownfields Project Officer, designated EPA Brownfields Project Representative or the Regional Quality Assurance Manager. At least 30 days before the initiation of the Phase II assessment, the recipient must submit the generic QAPP to the EPA Brownfields Project Officer or designated EPA Brownfields Project Representative. The EPA Brownfields Project Officer or designated EPA Brownfields Project Representative must approve the recipient's generic QAPP before the Phase II assessment begins.

In addition, at least 30 days before the initiation of any site sampling and analysis investigations, the recipient must submit a site-specific Sampling and Analysis Plan. This site-specific Sampling and Analysis Plan must meet the requirements found in the U.S. EPA Region III Site-Specific Sampling and Analysis Plan Template. A copy of the US EPA Region III Site-Specific Sampling and Analysis Plan Template can be obtained from the EPA Brownfields Project Officer, designated EPA Brownfields Project Representative or the Regional Quality Assurance Manager. Before sampling and analysis begins, the site-specific Sampling and Analysis Plan must be approved by the EPA Brownfields Project Officer or designated EPA Brownfields Project Representative.
