

**Clark Fork River
Consent Decree
Public Comment Period
February 12, 2008 - April 12, 2008**

Summary of Consent Decree

The CD pertains primarily to the Clark Fork River Operable Unit of the Milltown Reservoir Site. The settlement would resolve the claims brought by the United States against the Atlantic Richfield Company for the recovery of past and future costs in responding to releases of hazardous substances at the site. This settlement agreement marks the successful conclusion of negotiations between the government cleanup agencies and the responsible party and clears the way for site cleanup to begin.

The Proposed Consent Decree can be found at:
