

## Regional Science Council Education and Outreach Climate Change Speakers Series

USING SCIENCE TO MAKE A DIFFERENCE IN U.S. EPA REGION 9, THE PACIFIC SOUTHWEST REGION

### Climate Change Speakers Series

The Regional Science Council created this series of presentations in response to the Region 9 Energy and Climate Change Strategy. This series features a number of regional, national, and international experts from different fields offering unique insights into various climate change related issues. The intent is to inform and inspire staff to meet the challenges of climate change at work and at home. Representative topics and speakers are listed below.

### The Speakers

- Tian Feng, *Chief Architect, SF BART*  
**Greener Mobility: Vision for 21st Century American Public Transport**
