

# U.S. Environmental Protection Agency Region 8 Diesel Retrofit Webinar

April 19, 2012 ~ 9:00-11:00 AM Mountain

---

## Webinar Purpose

To update participants on diesel funding opportunities and provide a brief primer on diesel retrofit technology options and related application issues.

## To Register for the Online Event

1. Click "Here"
2. Click "Register"
3. On the registration form, enter your information and then click "Submit"

## Agenda

1. Welcome and Introductions
2. 2012 Diesel Emission Reduction Act (DERA) Funding  
Please note that there are significant changes to this year's DERA funds related to the types of technologies that can be funded and the amount of federal funding available for various technologies.  
On this webinar, EPA will discuss:  
  
Possible Projects -- What kinds of projects can be funded.  
Grant Eligibility -- Who is eligible to receive funds.  
Technology Options -- What types of technologies can be included in applications.  
Matching Funds -- What can federal funds pay for and what needs matching funds.
3. Diesel Retrofit Technologies and Related Application Issues
4. Question and Answer Session
