Civil Monetary Penalty Inflation  
Adjustment Rule; Final Rule

**ENVIRONMENTAL PROTECTION AGENCY****40 CFR Parts 19 and 27****[FRL-5671-1]****Civil Monetary Penalty Inflation Adjustment Rule****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Final rule.

**SUMMARY:** The Environmental Protection Agency ("EPA") is issuing this final Civil Monetary Penalty Inflation Adjustment Rule as mandated by the Debt Collection Improvement Act of 1996 to adjust EPA's civil monetary penalties ("CMPs") for inflation on a periodic basis. Prior to this new law, EPA's penalties had never been adjusted for inflation. This rule will allow EPA's penalties to keep pace with inflation and thereby maintain the deterrent effect Congress intended when it originally specified penalties.

This first mandatory adjustment increases almost all of EPA's penalty provisions by ten percent (except for new penalty provisions enacted into law in 1996, which are not being increased). The Agency is required to review its penalties again at least once every four years thereafter and to adjust them as necessary for inflation according to a specified formula.

**EFFECTIVE DATE:** January 30, 1997.**FOR FURTHER INFORMATION CONTACT:**

**SUPPLEMENTARY INFORMATION:** Pursuant to the Federal Civil Penalties Inflation Adjustment Act of 1990 (28 U.S.C. 2461 note; Pub. L. 101-410, enacted October 5, 1990; 104 Stat. 890), as amended by the Debt Collection Improvement Act of 1996 (31 U.S.C. 3701 note; Public Law 104-134, enacted April 26, 1996; 110 Stat. 1321), ("DCIA"), each Federal agency is required to issue regulations adjusting for inflation the maximum civil monetary penalties that can be imposed pursuant to such agency's statutes. With the adoption of this rule implementing these statutes, all violations which take place after January 30, 1997 will be subject to the new statutory maximum civil penalty amounts.

With the exception of the new penalty provisions added by the 1996 amendments to the Safe Drinking Water Act, all of the statutory penalty provisions administered by EPA are being increased. All of these increases are for the maximum allowed, ten

percent. The affected penalty provisions and their statutory maximum amounts are set out in Table 1 of the new 40 CFR 19.4.

Section 5 of the DCIA sets forth the formula for adjusting the penalties for inflation:

The inflation adjustment described under section 4 shall be determined by increasing the maximum CMP or the range of minimum and maximum CMPs, as applicable, for each CMP by the cost-of-living adjustment. \* \* \* The term "cost-of-living" adjustment is the percentage for each CMP by which the Consumer Price Index (CPI) for the month of June of the calendar year preceding the adjustment, exceeds the Consumer Price Index for the month of June of the calendar year in which the amount of such CMP was last set or adjusted pursuant to law. Any increase determined under this amendment shall be rounded \* \* \*.

However, the DCIA also sets a ten percent cap on the first adjustment for inflation. Since EPA's penalties have never previously been adjusted for inflation, this first statutorily required adjustment will be limited to ten percent. Table A below sets forth each CMP provision which is being increased pursuant to the DCIA and the intermediate calculations performed to arrive at the adjusted final maximum penalty contained in the last column and in today's rule.

<sup>1</sup> The "inflation factor" is the result of dividing the June 1995 CPI by the CPI for June of the year the penalty was last set or adjusted.

<sup>2</sup> The penalties must be rounded after the inflation adjustment pursuant to Public Law 101-410 Sec. 5A.

Future adjustments also be made in accordance with the statutory formula. Since today's inflation adjustments are being made in December 1996, the next scheduled adjustment will cover inflation from June 1996 to June of the year in which the next adjustment is made. The DCIA requires that penalties be adjusted for inflation at least once every four years.

#### Procedural Requirements

##### I. Administrative Procedure Act

In accordance with 5 U.S.C. 553(b), the Administrative Procedure Act ("APA"), EPA generally publishes a rule in a proposed form and solicits public comment on it before issuing the rule in final. However, 5 U.S.C. 553(b)(3)(B), of the APA provides an exception to the public comment requirement if the agency finds good cause to omit advance notice and public participation. Good cause is shown when public comment is "impracticable, unnecessary, or contrary to the public interest".

Accordingly, EPA finds that providing an opportunity for public comment prior to publication of this rule is not necessary because EPA is carrying out a ministerial, non-discretionary duty

specified in an Act of Congress. This rule incorporates requirements specifically set forth in the DCIA requiring EPA to issue a regulation implementing inflation adjustments for all its civil penalty provisions by October 23, 1996. The formula for the amount of the penalty adjustment is prescribed by Congress in the DCIA as well. Prior notice and opportunity to comment are therefore unnecessary in this case because these changes are not subject to the exercise of discretion by EPA. These technical changes, required by law, do not substantively alter the existing regulatory framework nor in any way affect the terms under which civil penalties are assessed by EPA.

##### II. Small Business Regulatory Enforcement Fairness Act

Under 5 U.S.C. 801(a)(1)(A), as added by the Small Business Regulatory Enforcement Fairness Act of 1996 ("SBREFA"), EPA submitted a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives and the Comptroller General of the United States prior to publication of the rule in today's Federal Register. This rule is a

not a "major rule" as defined by 5 U.S.C. 804(a).

##### III. Executive Order 12866-Regulatory Review

Under Executive Order 12866, (58 FR 51735 (October 4, 1993)), the Agency must determine whether the regulatory action is "significant" and therefore subject to Office of Management and Budget ("OMB") review and the requirements of the Executive Order. The Executive Order defines "significant regulatory action" as one that is likely to result in a rule that may:

- (1) have an annual effect on the economy of \$100 million or more or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities;
- (2) create a serious inconsistency or otherwise interfere with an action taken or planned by another agency;
- (3) materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or
- (4) raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in the Executive Order.

EPA has determined that this rule is not a "significant regulatory action" under the terms of Executive Order 12866 and is therefore not subject to OMB review.

#### IV. Unfunded Mandates Reform Act

Title II of the Unfunded Mandates Reform Act of 1995 ("UMRA"), Public Law 104-4, establishes requirements for Federal agencies to assess the effects of certain regulatory actions on State, local, and tribal governments and the private sector. Under sections 201, 202 and 205 of the UMRA, EPA generally must assess effects and prepare a written statement of economic and regulatory alternatives analyses for proposed and final rules with Federal mandates, as defined by the UMRA, that may result in expenditures to State, local, and tribal governments, in the aggregate, or to the private sector, of \$100 million or more in any one year.

UMRA Section 201 excepts agencies from assessing effects on State, local or tribal governments or the private sector of rules that incorporate requirements specifically set forth in law. Since this rule incorporates requirements specifically set forth in the DCIA, EPA is not required to assess its regulatory effects under Section 201. Further, the section 202 and 205 requirements do not apply to today's action because they apply only to rules for which a general notice of proposed rulemaking is published, and such notice was not published for this rule since it was not required based on the finding of good cause contained in Section I above. Additionally, today's action contains no Federal mandates for State, local or tribal governments or for the private sector because it does not impose any enforceable duties on these entities.

In addition, even if the assessment requirements of UMRA Title II otherwise applied to this rule, the requirements of section 203 of UMRA (requiring EPA to develop a small government agency plan before EPA establishes any regulatory requirements that may significantly or uniquely affect small governments, including tribal governments) would not apply here. This rule contains no regulatory

requirements that might significantly or uniquely affect small governments because the prescribed inflation adjustments do not change a small government's regulatory obligations. Additionally, this rule will have a similar effect on all individuals and entities subject to civil monetary penalties.

#### V. Regulatory Flexibility Act

In accordance with 5 U.S.C. 603, the Agency has determined that the regulation being issued today is not subject to the Regulatory Flexibility Act ("RFA"), which generally requires an agency to conduct a regulatory flexibility analysis of any significant impact the rule will have on a substantial number of small entities. By its terms, the RFA applies only to rules subject to notice-and-comment rulemaking requirements under the APA or any other statute. Today's rule is not subject to notice and comment requirements under the APA or any other statute because it is exempted. As discussed in Section I, while the rule is subject to the APA, the Agency has invoked the "good cause" exemption from the APA notice and comment requirements.

The Agency nonetheless has assessed the potential of this rule to adversely impact small entities. This rule contains no regulatory requirements that might significantly or uniquely affect small entities because the prescribed inflation adjustments have similar effect on all entities subject to civil monetary penalties and does not substantively alter the existing regulatory framework.

#### VI. Paperwork Reduction Act

This action contains no reporting or record keeping requirements for any non-federal persons or entities and consequently is not subject to the Paperwork Reduction Act, 44 U.S.C. 3501 et seq.

#### PART 19—ADJUSTMENT OF CIVIL MONETARY PENALTIES FOR INFLATION

##### § 19.1 Applicability.

This part applies to each statutory provision under the laws administered by the Environmental Protection Agency concerning the maximum civil monetary penalty which may be assessed in either civil judicial or administrative proceedings.

##### § 19.2 Effective Date.

The increased penalty amounts set forth in this rule apply to all violations under the applicable statutes and regulations which occur after January 30, 1997.

##### § 19.3 [Reserved].

##### § 19.4 Penalty Adjustment and Table.

The adjusted statutory penalty provisions and their maximum applicable amounts are set out in Table 1. The last column in the table provides the newly effective maximum penalty amounts.
