Bottom Line

- FY 2011 is over for budget purposes.
- Focus should be FY 2012 and beyond.
- FY 2012 will be a down year, but still higher than pre-FY2010.
- Tribes can get more funding if the overall pot increases, but this is not likely.
- Best chance is to argue for a larger tribal share of pot.
- Best argument is to use statistics to compare tribal situation v. state situation. For example, __% of tribe does not have access to safe drinking water v. __% of state.
