RE: RCRA Corrective Action Final Decision: Raytheon Former Beech Aircraft Site

The U.S. Environmental Protection Agency (EPA) has completed a RCRA Corrective Measures Final Decision for environmental remediation at the Raytheon Former Beech Aircraft site located at 6859 North Foothills Highway (US Highway 36) Boulder CO 80302. The eight selected remedies are listed below.

1. Continue to operate the upgraded Interim Remedial Measure Systems.
2. Maintain Sub-Slab Depressurization (SSD) system under the Clean Room Annex.
3. Enhanced Reductive Dechlorination (ERD) at Unnamed Drainage and boundary.
4. Continue chemical oxidation treatment within the Target Missile Fueling Area.
5. Implement a groundwater containment system within the Fort Hayes Limestone.
6. Implement a chemical oxidation treatment system within the Fort Hayes Limestone.
7. Implement institutional controls: Access, Deed and Physical Restrictions.
8. Continue site-wide groundwater monitoring and reporting until groundwater cleanup goals are attained.

Seven of the eight selected remedies are continuations of interim measures with demonstrated effectiveness. Details for each of the selected remedies are discussed in the attached complete Final Decision Document. The Final Decision Document will be posted on the EPA Region 8 Website until December 31, 2008. The Website address is::
