

Current Michael F. Vaccaro Fellows:

2011-2013 Vaccaro Fellows: Jacquin Milhouse (Univ. of MD) and Zachary Moor (Boston Univ.); **2012-2014 Vaccaro Fellows:** Dominique Freyre (Northwestern) and Lee Zarzecki (Univ. of Colorado)

"The Vaccaro Fellowship was a once in a lifetime opportunity to practice law with great colleagues in a fabulous city for a dynamic client whose needs were multidimensional. It was one of the best choices I've made in life." Jamison E. Colburn (1998-2000), Professor of Law, Penn State University | Dickinson School of Law

"My experience as a Vaccaro Fellow provided the perfect mix of guidance and independence which allowed me to grow as an attorney. While at EPA Region 3, my practice of law was shaped by my coworker's ability to merge passion with professionalism. I truly enjoyed my time there." Leigh Rende (2006-2008), USDOJ

"I loved working at Region III, and found the fellowship to be incredibly rewarding. Working in the Waste and Chemical Law Branch, I was almost immediately responsible for managing numerous enforcement cases as the lead attorney. It is rare to be given so much autonomy and responsibility so early in your legal career, and it was very exciting. I also always knew that, if I needed assistance or advice, I was supported by senior level attorneys with decades of experience to draw upon. I would recommend the fellowship to any aspiring environmental attorney." Brianna Fairbanks (2007-2009), Associate Attorney, Sierra Club.

Michael F. Vaccaro Fellows have hailed from: Boston Univ., Univ. of Colorado, Georgetown, Harvard, Howard, University of Maryland, Northwestern, University of Oregon, Pace, Rutgers Univ., Temple, Tulane, Vermont, and Villanova.

FELLOWSHIP DESCRIPTION

The Michael F. Vaccaro Honors Attorney Fellowship provides a unique opportunity to practice law in a major governmental environmental organization and to receive extensive training in and exposure to environmental law and policy work in the public sector.

The Fellowship recipient will work in the Office of Regional Counsel on particular matters arising under the major federal environmental statutes (such as the Clean Water Act, the Clean Air Act, Superfund, and the Resource Conservation and Recovery Act) and other federal statutes relevant to EPA Region III operations (such as the Ethics in Government Act, the Civil Rights Act, and the Freedom of Information Act). These matters typically require the development and application of emerging law and policy to significant environmental issues in Region III. The Fellowship will include an opportunity to manage environmental enforcement cases.
