

Be SunWise!

Across

- 2 It's when the sun's radiation is strongest
- 3 You might find this under a tree.
- 5 These prevent eye damage and look cool at the same time
- 8 What you need to do when your sunscreen is washed away
- 9 One with a brim protects your head, ears, and neck
- 10 These stop working when it's very dark
- 12 When your skin gets darker because it's been slowly injured by the sun

Down

- 1 Protects you from rain, and the sun too
- 3 A painful, red condition that can happen quickly if your skin is pale
- 4 They are the part of sunlight that can harm you.
- 5 This type of lotion absorbs some radiation after it soaks in
- 6 One with long sleeves covers your arms.
- 7 This number tells you how much a product protects you from the sun.
- 11 It's all over you right now!
